PREFAZIONE.

NEL presentare questa nuova Edizione del *Dizionario Italiano ed Inglese* di BARETTI al Pubblico, s'aspetterebbe naturalmente che l'editore nelle sue osservazioni seguitasse la pratica ordinaria di trovare da dire contro i suoi predecessori, e di vantarsi delle sue aggiunzioni, e correzioni; ma egli ha troppo riguardo per i lavori di Baretti, e dei suoi immediati successori per voler cercare ad avanzare il suo, col diminuire il loro credito.

Parlando dunque dell' opera preferisce d'indicare l'idea generale della sua compilazione nelle parole stesse di Baretti—" Che trovando il *Dizionario* d' Altieri (quantunque via più superiore a quello di Florio, e di Torriano) molto difettivo tanto nel numero che nella definizione delle voci, ed avendo risoluto di preporre a ciascun dei due tomi una breve grammatica per uso di coloro che non fossero iniziati o nell' una, o nell' altra lingua, aveva scelto per le sue fedeli guide nei labirinti grammaticali il Dr. Johnson per l' Inglese, e Buonmattei per l' Italiano."

Gli Editori della seconda, e della terza edizione si danno del merito per aver fatto molte addizioni e correzioni, come anche per aver escluse moltissime voci non delicate, ed inusitate, ovvero usate nelle provincie, tutte inutili in se stesse, e non servendo ad altro che ad aggrandire inutilmente i tomi.

Parebbe dunque alla prima vista (sotto tali guide) che niente altro fosse necessario, nel dare una nuova edizione alla luce, che di seguire il sentiero, che essi avevano già calcato. Per altro le varie e ben fondate lagnanze, che da tutte le parti risuonavano, troppo chiaramente indicavano che una simile attenzione non era stata data alle susseguenti edizioni, dalla multi-

tudine d' evidenti difetti introdotti, dalla quantità d' errori di tipografia, e particolarmente dalla straordinaria e quasi totale omissione della distinzione delle parti del discorso, e della natura dei verbi, che sono assolutamente necessarie in tutte le lingue.

Il rimediare a questo difetto, è stata la particolare e faticosa intrapresa del presente editore, e nel corso della quale ha fatto una attentissima rivista di tutta l' opera.

Ha parimente inserito molte voci d' uso comune e generale, che mancavano; ha grandemente facilitato le ricerche dei principianti coll' addizione delle terminazioni femminili agli addiettivi, ed ai participj; e con varie correzioni s' è sforzato di ristabilire l' opera in quella stima, in cui era, altre volte, tenuta tanto in Inghilterra, che in Italia.

GRAMMATICA

DELLA

LINGUA INGLESE.

CHIAMASI GRAMMATICA l' *Arte di far uso delle parole acconciamente, o la Scienza di parlar correttamente.* Questa insegna qual parentela s' abbiano fra loro le innumerabili voci d' una lingua; e secondo la comune divisione, consiste di quattro parti, **ORTOGRAFIA**, **ETIMOLOGIA**, **SINTASSI**, e **PROSODIA**.

Dell' ORTOGRAFIA.

Chiamasi ORTOGRAFIA l' *Arte di formar sillabe con accozzamento di lettere, e vocaboli con accozzamento di sillabe*; perciò primamente insegna la forma e il suono delle lettere.

Le lettere della lingua Inglese sono ventisei, e la loro forma nell' uso comune della vita non è differente dalla forma delle nostre. Le loro leggi però e gli atti pubblici sono scritti con caratteri da essi chiamati *antico Inglese* o *lettere nere*, e da noi *Semigotici*; e perchè tali caratteri sono poco conosciuti dagl' Italiani, io registrerò quì i due alfabeti col suono che gl' Inglesi danno a ciascuna lettera. Avvertasi però che questi suoni non sono espressi che a un dipresso, e non con musicale esattezza, perchè la cosa non è fattibile con iscrittura; e que' miei paesani che avranno desiderio di studiar questa lingua, credano a me che non c' è modo d' imparare a pronunziarla bene, se non si ricorre alla viva voce degl' Inglesi medesimi, come reciprocamente non c' è modo per gl' Inglesi d' imparare la vera Toscana pronunzia della nostra Favella se non l' apprendono da' nostri eleganti parlatori.

Le vocali Inglese non sono propriamente che cinque, *a, e, i, o, u*, ma in vece della *i* l' uso vuole che si scriva *y* in fine di molte parole, come in *shy, holy*, e dinanzi alla *i*, come in *dying, beautifying*, e in *says, days, eyes*, e in vocaboli derivati dal Greco, come *system, sympathy*, e altri moltissimi.

In vece della *u* gl' Inglese usano spesso la *w* dietro ad una vocale per fare un dittongo, come *raw, grew, view, vow, flowing, lowness*.

Quantunque nel leggere l' Alfabeto gl' Inglese diano a ciascuna lettera quel suono da me quasi espresso nel margine d' esso, pure nel discorso quasi ogni lettera ha altri suoni, come di mano in mano verrò notando.

Delle VOCALI.

A.

L' *A* ha trè suoni chiamati dagl' Inglesi, *A tenue* o *chiuso*, *A aperto*, e *A largo*.

L' *A tenue* o *chiuso*, che in Italiano suona come *e*, è considerato come il vero *A* Inglese, forse perchè occorre molto più frequentemente ne' vocaboli loro che non gli altri due. I Francesi lo pronunziano esattamente come gl' Inglesi nella parola *païs*.

Osservisi però che in principio di parola di rado l' *a* è *tenue* o *chiuso*.

L' *A* che gl' Inglesi chiamano *aperto* s' assomiglia al nostro, come nelle voci *father*, *rather*, *congratulate*, *fancy*, *glass*, e nella maggior parte de' vocaboli che cominciano in *a*, come *abandon*, *about*, *actor*, *across*, *adapt*, *adjourn*.

L' *A largo*, che da alcuni è anche chiamato *Germanico* o *Teutonico*, e che noi potremmo anche chiamare *strascinato*, esce di rado o forse non mai della bocca d' un Toscano, ma da' Napoletani l' ho sentito più volte, e sovente ancora da' Romani. Questo *a* non si trova mai in voci derivate dal Greco o dal Latino, ma solamente in quelle che ebbero il loro nascimento nel settentrione, come *all*, *wall*, *call*, *small*, che forse dagli antichi Inglesi si scrivevano o almeno si pronunziavano *aull*, *waull*, *caull*, *smaull*.

A forma dittongo solamente colle lettere *i*, *y*, *u*, e *w*. *Ai* in *plain*, *vain*, o *ay*, in *gay*, *clay*, suona come l' *A tenue* o *chiusa*. *Au* in *author*, *naughty*, o *aw* in *raw*, *awful*, ha suono *largo* o *Germanico* o *Teutonico*, come dicono gl' Inglesi, o *strascinato* o *Napoletano*, o *Romano*, come direi io.

Alcuni Inglesi scrivono *ae* in certe poche parole derivate dal Greco o dal Latino, e poi le pronunziano come gl' Italiani; come *Caesar*, *Aeneas*: i loro più giudiziosi scrittori però non addottano tale ortografia, come contraria alla natura della loro lingua, e scrivono e pronunziano *Eneas*, *Cesar*.

E.

Questa lettera è più frequente che non alcun' altra nella lingua Inglese, e anch' essa ha tre principali suoni, uno *lungo*, uno *breve*, e uno *muto*, il suono però si può chiamare quello a cui si dà il nome di *muto*.

Il suono *lungo* si fa sentire nella voce *scène*, che si pronunzia, quasi come se fossero due de' nostri *i* liquefatti uno nell' altro.

Il suono *breve* ha molta similitudine col nostro *e*, come nelle voci *cellar*, *separate*, *celebrate*, *men*, *then*.

E, dinanzi a consonante raddoppiata o a due consonanti, è sempre *breve*, cioè, ha sempre il suono Italiano, come in *relent*, *medlar*, *serpent*, *cessation*, *blessing*, *fell*, *felling*, *debt*.

E, ha sempre suono *muto*, cioè non ha quasi suono alcuno quando termina un vocabolo, e serve per lo più a raddolcire o moderare la consonante che precede, come nelle voci *since*, *once*, *hedge*, *oblige*, o ad allungare la precedente vocale, come *bāne*, *cāne*, *pīne*, *tūne*, *rōbe*, *pōpe*, *fīre*, *cūre*, *tūbe*, che, se si togliesse da tali vocaboli quest' *e* *muta*, si pronunzierebbono *brevi* e con un suono *stringato*, e *secco*, cioè *băn*, *căn*, *pîn*, *tûn*, *rôb*, *pôp*, *fûr*, *cûr*, *tûb*.

Quasi tutti i vocaboli che oggi terminano con una consonante, terminavano anticamente in *e* come veggiamo nelle scritture antiche e negli antichi libri Inglesi; *year*, *wildness*, esempligrizia, scrivevansi *yeare*, *wildnesse*. Quella *e* aveva probabilmente la forza dell' *e* *femminino* *Francese*, e costituiva forse una

imperfetta sillaba; ma oggi è in tutto tralasciata tanto nello scrivere quanto nel pronunziare.

Ho detto che la lettera *E*, quando è *muta finale*, serve per lo più a raddolcire, moderare, o allungare la precedente vocale. La regola non è però senza eccezione, perchè nelle voci *glove*, *live*, *give*, e alcune altre, le vocali che precedono la *e muta finale*, non sono nè raddolcite, nè moderate, nè allungate, ma si pronunziano *secche* e *brevi*, e con suono Italiano, cioè come noi pronunzieremmo *glov*, *liv*, *giv*. La *e* ha ancora un altro suono oscuro e quasi impercettibile nel fine di alcuni vocaboli, come in *open*, *shapen*, *shotten*, *thisle*, *pickle*, *participle*, *metre*, *lucre*, *theatre*, *sepulchre*; e di questo suono non se ne può dare idea ad un Italiano, se non a viva voce.

E, forma dittongo con *a*, come nelle voci *near*, *mead*, *clear*, *mean*, *dear*, e tal dittongo suona come due *i* Italiani liquefatti insieme; o nelle voci *pleasure*, *measure*, *meadow*; e allora suona come *e* Italiano. Tuttavia ne' miei lunghi studi sulla lingua e pronunzia Inglese ho trovate molte voci che s' allontanano più o meno da questa regola. *Creature* verbigrazia si pronunzia come se fosse scritto da noi *crétur*, e tutti i derivativi di questo sostantivo hanno la prima sillaba *cre* divisa dall' altre, come in Italiano, *cre-ate*, *cre-ated*, *cre-ating*, *cre-ation*, *cre-ator*. Perciò nessuno prenda questa indicata regola per infallibile, come neppure alcuna di quelle che ho già date quì di sopra, o che darò quì dietro, che regole di pronunzia Inglese assolutamente invariabili nell' opinione mia non ve n' ha neppur una; e la sola e vera regola di pronunziare l' Inglese bene, è di venire in Londra con un buon pajo d' orecchi, e con una lingua dotata di muscoli agili ed ubbidienti.

E, forma dittongo con *i*, come in *seize*, *perceiving*, e anche tal dittongo suona come due *i* Italiani liquefatti in un solo.

E, forma dittongo con *u*, come nel principio delle voci *eucharist*, *eugh*, *eunuch*, *Europe*, e tal dittongo pronunziassi quasi come un Italiano pronunzierebbe *ju*, o per meglio dire come un Francese pronunzierebbe *yu*.

E, forma dittongo con *v*, il quale si pronunzia talora come un Francese pronunzierebbe *yu*, e talora come pronunzierebbe il suo *u* vocale. I Piemontesi, i Genovesi, i Lombardi, ed i Furlani hanno questo suono, e pronunciano la loro vocale *u* come i dittonghi Inglese *eu* e *ew*; ma i Toscani e gli altri abitanti delle parti orientali e meridionali d' Italia non conoscono tal suono.

A, *e*, *u*, formano un trittongo nella parola *beauty*, e ne' suoi derivativi che ha suono di *ju* pronunziato alla Francese, alla Piemontese, alla Lombarda, alla Genovese, o alla Furlana.

E, duplicata, forma un altro dittongo che ha suono d' *i* strascinata, o come dissi di due *i* liquefatti insieme, come in *agree*, *sleep*, *sheep*.

Eo non credo s' incontri mai come dittongo che nelle voce *yeoman*, e suoi derivati, e si pronunzia come l' o Italiano; o nella voce *people*, e si pronunzia come *i* Italiana un poco strascinata.

I.

I, suona come *ei* nelle nostre voci *sei*, *rei*, e così vien pronunziato nell' alfabeto quando *i* fa sillaba da se stesso, come nella voce *iron*, e quando si trova in mezzo di monosillabi terminati dalla *e muta*, come in *mine*, *fine*, *hide*.

Quando *i* termina una sillaba d' una parola derivata dal Latino, conserva il suono che era probabilmente il suo originale, come in *aliment*, *continual*.

Quando *i* si trova in mezzo a sillaba non terminata da *e muta*, conserva pure un suono breve e simile a quello della *i* Italiana, come in *fin*, *pin*, *thin*, *brim*.

Quando *i* precede due consonanti in una sillaba sola, per lo più conserva anche allora un suono come l' Italiano, come *hint*, *stint*, *mint*, *wind*, *carving*, *starving*.

Pure a questa regola vi sono di molte eccezzuazioni, perchè in *mind*, *blind*, *sign*, e in molt' altre voci l' *i* si pronuncia come l' Italiano *ei* nelle voci nostri *sei*, *rei*, come ho detto di sopra ; onde torno a replicare che l' Italiano che vuol imparare a pronunziare l' Inglese venga a Londra con quegli orecchi e con que' muscoli della lingua ch' io dissi già.

Lives terza persona singolare del presente del verbo *to live*, e *lives* plurale del nome *life* si pronunciano affatto differentemente, poichè il primo è *livs*, e l' altro è *leivs* se stessero scritti e se venissero pronunciati secondo la forza e il suono che noi diamo alle lettere del nostro alfabeto.

Quando la *i* precede la *r*, come in *flirt*, *first*, *shirt*, ha un certo mal suono poco sensibile, e diverso affatto da quello del nostro *i*. Di tal suono io non posso dar idea con parole ; dirò solo che è vocale non suscettibile punto di musica, e che se la voce d' un cantante vi si fermasse un momento sopra farebbe ridere ogni Italiano e fors' anche gl' Inglesi medesimi.

I, non forma dittongo in Inglese che colla vocale *e*, come in *field*, *shield*, e tal dittongo ha suono d' una *i* Italiana strascinata, e nella voce *friend* suona come se fosse scritto *frend*.

I, si unisce col dittongo *eu*, come in *lieu*, e col dittongo *ew*, come in *view* ; ma i suoni di tali due trittonghi così formati procurerò di farli sentire agl' Italiani che verranno da me cogli orecchi, poichè colla scrittura non c' è verso. Dirò solo che tali suoni hanno qualche parentela colla *u* Francese, o Piemontese, o Lombarda, o Genovese, o Furlana.

O.

O, ha due suoni principali, uno *lungo* e l' altro *breve*. Il lungo, come in *bône*, *obedient*, *corröding* ; il breve in *blöck*, *knöck*, *öblique*, *löll*. Regola generale è, che quando l' *o* fa sillaba da se o la termina, o che si trova in monosillabo o parola terminata da *e muta*, allora è *lungo* ; quando seguito da una o più consonanti nella sillaba in cui si trova, allora è *breve*.

O, in *woman* partecipa dell' *u* Toscana, e in *women* si cangia in *i*. Strana metamorfosi fatta dall' uso !

In alcune sillabe e monosillabi, dove l' *o* si trova fiancheggiato di quà e di là da due semplici consonanti, prende un suono brevissimo e stretto quasi come *u*, come in *son*, *come*.

O, s' incorpora in dittongo con *a*, come in *moan*, *groan*, *approach*, e ha suono oscuro e strascinato.

Alcuni Inglesi, troppo puntigliosi in fatto d' etimologia, scrivono *oeconomy*, *Oedipus*, e altre tali voci derivate del Greco, e pronunziano poi l' *oe* come *e* ; ma perchè *oe* non è dittongo Inglese, i meno affettati scrittori scrivono e pronunziano *economy*, *Edipus*.

O, unito a *i* in una stessa sillaba, come in *oil*, *soil*, *moil*, *toil*, *moist*, *noisome*, forma un dittongo, in cui il suono d' una vocale non si perde in quello dell' altra, ed è per conseguenza il più perfetto dittongo che gl' Inglesi abbiano nella loro lingua.

O, raddoppiato in una stessa sillaba forma un suono similissimo alla *u* Toscana, come in *boot*, *hoot*, *cool*, *cooler*. Questa regola però patisce alcune poche eccezzioni, perchè nelle voci *door*, *floor*, i due *oo* hanno suono d' una sola *o* aperta e piuttosto *breve* che *lunga* ; in *flood*, *blood*, i due *oo* hanno un altro suono diverso da i due già detti, ma non esprimibile a un Italiano che dalla viva voce.

In certe voci derivate dal Latino, come a dire *cooperate*, i due *oo* si fanno entrambi sentire distintamente, come nella voce Toscana *cooperare*.

Quando *o* s' accoppia nella stessa sillaba con *u*, talora serba il suo suono alfabetico, come in *our*, *sour* ; talora ne perde un poco come in *labour*, *favour*, *honour*,

e altre voci venute in Inghilterra dal Lazio, e talora ne acquista un poco come in *soul*, e la *u* in tutti e tre questi casi non le serve che come di paggio, perdendo della propria naturale importanza. In *court* l' *o* s' ammolisce, in *cough* si raccorcia, in *could*, fa allungare un po' po' ambe le labbra a chi lo pronuncia, in *rough*, *tough*, non cagiona che un po' di movimento nel labbro di sotto; in somma l' uso, Signori Italiani, l'uso è quello solo che vi può condurre da uno all' altro di questi *o* così diversamente immascherati dall' *u*, e farveli conoscere tutti senza pericolo di sbagliare uno per un altro.

Difficile impresa anche sarebbe quella di far capire colla penna a un Italiano la differenza che ha l' *o* Inglese, quando, accompagnata colla *w*, termina sillaba o monosillabo o parola, e forma come un dittongo. In *bow*, verbigrizia, quando significa *inchino*, ha un suono molto diverso da quello che ha in *bow* quando significa *arco da scagliar frecce*, o *archetto di violino*. Ma lasciatemelo ridire ancora mille volte, che la viva voce e l' uso spianeranno questo scabroso cammino a que' che coraggiosi vorranno vederne a ogni modo la meta.

E qui esorto i miei paesani volenterosi di studiare l' Inglese a non badare a certi moderni innovatori che vorrebbero si scrivesse *favor*, *honor*, *labor*, e altre tali Latinesche voci, invece di *favour*, *honour*, *labour*, come scrissero e scrivono tutti i loro predecessori e contemporanei che ebbero e hanno orecchio fine. In tutti i paesi vi sono di questi sputacujussi che cercano di far figura con qualche novità nell' ortografia, cosa non meno facile a trovarsi, che insulsa quando è trovata.

U.

Anche questa vocale ha due suoni in Inglese. Uno lungo, come in *use*, *confusion*, che in Italiano si pronunciano come se si scrivesse *juus*, *confjusion*; l' altro breve, come *us*, *concussion*.

Ma quando la *u* Inglese si debba pronunziare lunga, come noi pronunzieremo *ju*, o quando corta e quasi come l' *u* de' Lombardi, quì cova la gatta, che nè io nè altri credo abbia una regola universale e invariabile a questo effetto!

Quando la *u* si accoppia coll' *a*, *e*, *o*, e precede loro, come in *quaff*, *quest*, *quit*, *quote*, pronunziasi come da' Toscani senza punto di differenza. In alcune voci però accoppiata e precedente l' *i*, fa perdere a questa smilza vocale il suo suono e l' annichila interamente, come nelle voci *juice*, *sluice*. Nelle voci o sillabe che cominciano in *gua*, *gue*, *ghi* la *a* è annichilata essa stessa, che *guard*, *quest*, *guise*, per esempio, si pronunziano come da noi si farebbe *gard*, *ghest*, *gheis*.

Nella voce *virtue* annichila il suono della *e*, e nelle voci *prorogue*, *synagogue*, *plague*, *vague*, *harangue* non solamente l' *e* finale sparisce dalla pronunzia, ma l' *u* medesima, nè più e meno di quello che farebbe in Francese in voci di quella struttura, cioè terminanti in *gue*.

Y.

Di questa vocale gl' Inglesi potrebbero molto bene far senza, e non sentirne grande incomodo, poichè non serve loro che per porla in fine delle parole in *vece* della *i*, come in *thy*, *my*, *ally*, *pretty*, e in moltissime altre; o dinanza la *i*, come in *dying*, *spying*.

Questa lettera quando si trova in fine di parola e di sillaba preceduta da consonante che non sia *t*, suona come la sillaba Toscana *ei*, come in *ally*, *spy*, *my*, *thy*.

Quando in fine di sillaba o di parola si trova preceduta dalla vocale *a*, allora le due vocali insieme formano un suono dittongato che partecipa dell' *a* e dell' *i*, e di due vocali se ne fa una che suona come l' *e* Italiana pronunziata con un po' di strascico.

Quando in fine di parola o di sillaba si trova preceduta da *o*, ha quel suono che la *i* Italiana avrebbe nello stesso caso come *boy, destroy, joy*.

In fine di sillaba o di voce la *y* preceduta da *t* conserva un suono come la *i* Italiana, come *hearty, liberty, property, cruelty, pretty, Betty, knotty, smutty*.

Negli antichi libri e scritture Ingresi questa vocale *y* è usata quasi senza riguardo alcuno in vece di *i*.

Delle CONSONANTI.

B.

QUESTA lettera suona in Inglese come in Toscano, salvo che ella è muta nelle voci *debt, debtor, doubt, lamb, limb, dumb, thumb, climb, comb, womb*, e in alcune altre, nelle quali è conservata o per dritto d' antico possesso e di prescrizione, o per qualche ragione etimologica.

C.

C, alfabeticamente si pronuncia quasi come i Toscani pronunciano la prima lettera di *sino*.

C, accoppiata colla *e* o colla *i* conserva il suo suono alfabetico, come in *sincere, centric, city, cistern, Nancy*.

C, accoppiata coll' *a*, coll' *o*, e coll' *u* suona come in Italiano farebbe nel medesimo caso, come in *calm, concavity, concupiscence, incorporate, acorn*.

C, precedente consonante si pronunzia altresì come si farebbe in Italiano nel caso stesso, come in *cling, cluster, closet, clod, clink, clergy, cleft, clear, claw, clasp, clash, crack, crasy, credible, creep, cricket, crimp, cruel*.

C, accoppiata con *h* in voci derivanti dal Greco, pronunciasi come noi facciamo la *K* in *Kirie*, come in *chymist, scheme, choler*.

C, accoppiata con *h* in parole non derivanti dal Greco suona come suona in Italiano nelle sillabe *ce, ci*, come in *chew, chattel, cheap, church, chin, child, chief, urchin, much, such*.

Osservisi però che nella dignitosa sillaba *arch* accoppiata ad altra parola cominciante con consonante; come in *archbishop, archrogue*, e simili, il suono di *ch* si conserva come dissi nelle voci *chew, chattel, cheap*, &c. ma *arch* si cambia pronunziando in *ark* quando s' accoppia con parola cominciante con vocale, come in *archangel*.

Ch, in certe voci trasportate o dal capriccio o dalla necessità dalla lingua Francese nella Inglese, come *chaise, machine*, ritengono il loro suono nativo che s' avvicina assai a quello di *sce* e *sci* Toscano.

D.

Ha un suono costante, e in tutto simile a quello che ha in Italiano.

F.

Anche questa consonante ha suono costante e simile a quello che noi le diamo, salvo che nel monosillabo *of*, che molto sovente si pronunzia dagl' Ingresi come noi facciamo la prima sillaba di *ovvero*.

G.

Quando questa consonante è succeduta in sillaba da *a*, *o*, *u*, ha il medesimo suono duro che noi le diamo nello stesso caso, come nelle voci *gay, gain, gall, goer, gospel, gull, gum, gun, gut*.

Duro suono ha pure quando è seguita da consonante, o dall' *h* in principio di sillaba, come in *ghastful*, *gherkin*, *ghost*, *glace*, *glad*, *gleen*, *gleek*, *glilter*, *globe*, *glue*, *glum*, *groom*, *grom*, *grudge*. Questa regola però patisce eccezione quando in sillaba *g* è seguita dalla consonante *n*, che allora perde molto del suono, anzi lo perde interamente, come nelle voci *gnarl*, *gnat*, *sign*, *foreign*; e anche a questa eccezione bisogna farne un'altra, cioè che in parole derivanti dal Greco la *g* conserva il suo suono duro quantunque seguita dalla consonante *n*, come in *gnomon*, *gnomonics*.

E suono duro ha altresì in alcune poche voci dove precede in sillaba la vocale *y*, quando però quelle voci sieno native Inglesi, come in *gybe*, *gyves*, *gyve*; ma il suono è molle quando *g* precede in sillaba l' *y* in voci derivate dal Greco o dal Latino, come *gymnastic*, *gymnic*, *gyration*, *gyre*.

Se la *g* precede in sillaba le vocali *e* o *i*, difficile cosa è il far capire a un Italiano quando è dura e quando è molle, cioè quando ha suono simile a quello che ha nelle nostre voci *gabbia*, *gola*, *gusto*, e quando lo ha simile a quello che ha nelle nostre voci *gente*, *genere*, *gita*, *giova*. Vediamo tuttavia se gli è possibile trovar filo che ci conduca in questo labirinto.

Io credo che si possa stabilire come regola generale, che quando in *g*, precedente in sillaba *e* o *i* nelle voci venute in Inghilterra dal settentrione, cioè nelle voci d' origine Teutonica, conserva il suo originale suono duro, come in *gear*, *geese*, *geld*, *get*, *gemgaw*, *gibbous*, *giddy*, *gift*, *gild*, *gimlet*, *gird*, *girl*, *give*, *finger*, *hanger*, *monger*. Ma nelle voci venute in Inghilterra da levante e da mezzo giorno, cioè nelle voci derivate dal Greco, dal Latino, dal Francese, o dall' Italiano, *g* precedente *e* o *i*, ha suono molle, quale lo ha presso di noi nello stesso caso, come nelle voci *gelid*, *gem*, *gender*, *generous*, *gentleman*, *geometer*, *gerund*, *gibe*, *gibbet* (forca, del Francese *gibet*), *gin* (trappola, corrotta da *engine*, derivato da *ingegno*) e *gin* (sorta di liquore, derivato dall' Italiano *ginepro*, o dal Francese *genève*).

Questa regola patisce però alcune poche eccezioni, che la prima *g* in *gingle*, quantunque non nata in caldo clima, ha suono molle, e la *g* in *gibberish*, quantunque si pretenda venuta dall' Arabia, ha suono duro.

G, è sempre dura quando si trova in fine di sillaba o di parola, come nelle voci, *ring*, *sting*, *pug*, *snug*, *song*, *throng*. Bisogna però osservare ch' ella è pressochè muta terminando la sillaba *ing* quando tal sillaba, che per se non ha significato alcuno, altera il significato dell' infinito e lo fa diventare participio, come in *singing*, *ringing*, *playing*, *going*, *coming*, *attacking*, *getting*, *knowing*.

Ho detto che quando *g* è seguita dall' *h* in principio di sillaba ha suono duro, come nelle voci *ghastful*, *gherkin*, *ghost*. Quando però *gh* si trova in mezzo di sillaba o in fine, allora perdesi e s' annulla, come nella voci *though* che si pronunzia *tho'*; *rough* che si pronunzia *ruff*; *right*, *sight*, *night*, che si pronunziano *reit*, *seit*, *neit*; e così in molt' altre; avvertendo ancora che in buon numero d' altre voci e sillabe terminanti in *gh*, tal *gh* si cambia in *f*, come in *laugh* e suoi derivati, in *cough*, *tough*, *enough*, *slough*. Ma come dissi questo negozio del *g* in Inglese è un labirinto, di cui l' uso solo e la viva voce può apprendere le intricate vie.

H.

Questa lettera, o piuttosto segno, in Inglese, serve solo ad additare che la vocale che immediatamente la siegue in principio di parola deve pronunziarsi con forte spinta di fiato, quando quella tal parola è pullulata da radice Teutonica, come nella voci, *hat*, *had*, *haggard*, *hair*, *health*, *happy*, *hammer*, *hang*, *help*, *hemlock*, *herd*, *hide*, *high*, *hill*, *hiss*, *hog*, *hold*, *hope*, *how*. Quando però *h* principia parola o sillaba derivata dal Latino, l' aspirazione non ha punto luogo, come in *habit*, *harmony*, *heir*, *herb*, *hereditary*, *hermit*, *hieroglyphic*, *hilarity*,

history, honest, honour, hour, humour, humble, hydropic, hymeneal, hypothesis. In tali parole gl' Inglesi non l' hanno conservata che per puro amore all' etimologia, come fecero per alcuni secoli anche gl' Italiani.

Quando l' *h* si trova in mezzo di lettera o in fine, come s' è detto di sopra alla lettera *g*, ci serve, come il matto ne' tarocchi, per comodo di qualch' altra lettera, la di cui pronunzia sarebbe a gran pena determinata senza l' assistenza di questo segno.

J.

La *j* consonante suona in Inglese come la *g* molle, cioè come la nostra *g* quando precede *e* o *i*, tanto che questi Isolani potrebbero torla via del loro alfabeto se non fosse che serve loro per conservare l' etimologia Latina di più voci, come in *japan, jealous, jest, joke, juncture, junior, juvenile*, nelle quali si pronunzia tale e quale come in quelle di derivazione Teutonica, *jude, jar, jeer, jerk, jilt, job, jowler, jug, jump.*

K.

Questa lettera ha quel medesimo suono che ha il nostro *c* quando precede *a*, *o*, *u*, come in *kalendar, kan, keel, keen, ken, key, kid, kin, king, skirt, skeptick*, (che molti scrivono *sceptick*).

Osservisi però che quando in principio di parola o di sillaba la *k* è seguita da *n*, allora diventa affatto muta, così che si scrive *knack, knave, knead, knight, knit, knock, know, knotty, knuckle*, ma si pronuncia come se stesse scritto solamente, *nack, nave, nead, night, &c.*

Leggasi anche l' ultimo articolo nelle osservazioni che ho fatte più sù sulla consonante *C*, dove dissi qualcosa della *k* finale negli adjettivi venuti dal Lazio in Inghilterra.

L.

Ha lo stesso suono liquido che ha in Italiano. Raddoppiasi al fine de' monosillabi, come *kill, will, full*, perchè dagli antichi Inglesi tali parole si scrivevano *kille, wille, fulle*, e quella *e* finale probabilmente si pronunziava dapprima, poi divenne muta, e poi in processo di tempo si troncò via; la seconda *l* però fu conservata per dar forza alla prima secondo l' analogia della lingua Inglese.

L, è qualchevolta muta, come nelle voci, *calf, half, halves, calves, could, would, should, psalm, talk, salmon.*

Le, quando è finale, pronunziasi con un suono languido, quasi come gl' Italiani pronuncierebbero *el*, come in *table, shuttle, pickle.*

M.

Suona esattamente come in Italiano.

N.

Suona pure come in Italiano, eccettuato quando vien dietro a *m* nella stessa sillaba, che allora tace affatto, come in *damn, condemn, hymn.* In *condemnation, damnation*, e simili, la *n* si pronuncia perchè non è più in una stessa sillaba colla *m*.

P.

Suona come in Italiano, eccetto quando si trova in sillaba fra *m* e *t*, che allora non ha suono alcuno, come in *tempt.* In *psalm* e suoi derivativi è altresì muta.

P seguita dall' *h* in voci derivate dal Greco o dal Latino ha suono di *f*, come in *philosopher, philanthropy, Philip*.

Q.

Questa lettera come in Italiano si pronunzia, e come in Italiano è sempre seguita da una *u*, come in *quadrant, queen, quilt, equestrian*.

Qu, in certe voci derivate dal Francese, suono come *k*, come nelle voci *conquer, liquor, risque, chequer*.

R.

R, ha lo stesso suono cagnesco che ha in Italiano. In voci derivate dal Greco trovasi per ragione d'etimologia seguita dall' *h*, come in *myrrh, myrrhine, cattarrhus, rheum, rheumatic, rhyme*.

S.

S, ha per lo più suono di fischio, specialmente in principio di parola, come in *sibilation, sister, syllable*, nelle quali la *s* pronunciasi come in Italiano in *sibilo, sorella, sillaba*.

S semplice di rado termina parola Inglese, trattine i plurali de' nomi, come *trees, bushes, distresses, fathers, mothers*, le terze persone de' verbi, come *loves, grows, presents, attacks*, i pronomi *this, his, ours, yours*, l'avverbio *thus*, e alcune poche voci derivate dal Latino, come *rebus, surplus*. In ogni altro caso le terminazioni sono in *se*, come *house, horse, mouse*, nelle quali la *e* è muta; o in *ss*, come nelle voci *mass, lass, dress, distress, kiss, miss, truss*, e quando tali voci sono nomi sostantivi suscettibili di plurale, il plurale si forma con aggiungere *es*, *masses, lasses, dresses, distresses, kisses, misses, trusses*.

Osservisi che l' *s* semplice quando è finale non fischia con tanta forza come fa quando si trova nel cominciamento di sillaba o di parola, salvo che nelle voci *this, thus, us, rebus, surplus*, che in esse conserva il suono gagliardo come quello che ha in *sibilation, sister, sound, syllable*.

In voci venute dal Latino e terminanti in *ion* ha suono forte e molto fischiante quando siegue una consonante, come in *conversion, reversion*, e suono languido e poco fischiante quando siegue una vocale, come in *intrusion, confusion*.

S, ha suono debole altresì quando è seguita dall' *y* finale, come in *rosy*, o dall' *e* muta, come in *refuse*. In questo secondo caso però c'è una eccezzuazione molto strana, e forse la sola in tutta la lingua Inglese, ed è nella voce *abuse*, che quando è verbo la *s* si pronuncia languida, e quando è nome si pronuncia gagliarda.

S, suona anche languidamente nelle voci *bosom, desire, wisdom, prison, prisoner, présent, présent, damsel, casement*; e il perchè di questa sua languidezza in queste voci e in molt'altre, contro la regola generale, io non l'ho potuto trovare, quantunque l'abbia cercato un pezzo.

S, tace assolutamente nelle voci *isle, island, demesne, viscount*.

T.

T, ha primariamente il suono che ha in Italiano, come in *take, tempted, bombast, attain, calamity, cataract*.

Ti dinanzi a vocale ha suono come di *si* anzi quasi come di *sci* in Italiano, come in *rotation, salvation*, che si pronunciano quasi come da noi si farebbe se si scrivesse *rotéscion, salvescion*.

S'osservi però che tal cangiamento di suono nella lettera *t* non succede quando *ti* è preceduto dalla *s*, che allora si pronunzia Italianamente, come in *question*, e così ne' derivativi di voci terminanti in *y*, come da *mighty, mightier*.

Th, ha due suoni in Inglese. Uno che s' avvicina molto a quello del *d*, come in *then, thence, there*, e loro derivativi e composti e in *that, these, thou, thee, thy, thine, their, they, this, those, them, though, thus*, e dappertutto dove si trova in mezzo di due vocali, come in *father, mother, whether, either*, e tra l' *r* e una vocale, come in *burthen, murther*.

L' altro suono di *th* non si può esprimere a un Italiano che a viva voce, essendo un sibilo che si fa colla punta della lingua fra denti, come in *thick, thunder, faith, faithful*.

Un terzo suono parmi aver osservato in *th*, che i grammatici Inglesi confondono col primo, e che a me pare sia un pochino sibilante e insieme un poco parente della lettera *d*, come nelle voci *breathe, clothe*, e in altre, dove *th* è seguito da *e* muta; ma di questo suono egualmente che del secondo non potrei darne idea che colla voce.

Bisogna ancora ch' io dica che la *t* in molte parole derivanti dal Latino innanzi *i* e *u*, suona come il *c* molle degl' Italiani, come in *mutual, habitual, nature, sculpture*, e infinite altre che da tutti sento si pronunciano *mùciual, hábicinal, néciur, scùlpciur*. Forse che questo strano suono dato al *t* è vizioso e della plebe; pure lo sento ogni dì in bocca de' dotti e de' nobili.

V.

Questa lettera, quando è consonante, non è in nulla dissimile dalla nostra, come in *vain, vanity, invention, observe*.

W.

Alcuni grammatici Inglesi hanno posta questa lettera nel numero delle vocali, comechè la maggior parte d' essi la dicano consonante perchè nè s'incorpora come altre vocali, nè le distrugge nè è distrutta quando s'accozza con esse, come in *frosty weather*.

W, è però sicuramente vocale quando si trova l' ultima in sillaba o parola, come in *draw, view, blow, snow, drawing, viewing, blowing, snowing*, o almeno se non è vocale, aggiunge suono alla vocale che la precede, e forma con essa una spezie di dittongo particolare alla lingua Inglese.

W, è anche secondo l' opinion mia, una vocale quando è seguita da vocale, perchè allora forma dittonga, cioè si confonde in parte con tal vocale, come in *water, well, wench, wood*. Vocale, o no, noi non abbiamo suono che somigli al suo, onde non posso darne idea con la penna.

Quando in principio di sillaba *w* è congiunto all' *h* (nel qual caso siegue sempre una vocale e non mai una consonante) come in *what, whence, white*, si pronunzia con più veemenza di fiato.

Nelle voci, *whore, wholesome*, generalmente in tutte quelle che cominciano in *who* e non in *whoo*, pare che l' uso l' annichili, e che tali voci si pronunzino come se cominciassero con un *h* aspirata con forza.

X.

X, non si trova che cominci mai alcun vocabolo Inglese. Quando si trova in mezzo altre lettere ha quel suono che noi le diamo quando la leggiamo in Latino; come in *axle, extraneous, connexion*.

Y.

Questa lettera è appunto come il *Pipistrello* ch' or ha forma di *Topo* ed or d' *Uccello*; voglio dire che quando siegue consonante *y* è vocale, e quando siegue

vocale *y* è consonante. Alcuni vogliono che sia sempre vocale; ma non sarà di questo pensiero chiunque osserverà che vien dietro a se stessa quando è consonante senza punto incorporarsi o diminuirsi, come in *rosy youth*.

Z.

Anche questa lettera come la *x* non dà principio a nessun vocabolo veramente Inglese. Il suo suono quando si trova in mezzo di parola è dolce e quasi somigliante a quello del nostro *z* nelle parole *gentilizio*, *pulizia*.

Dell' ETIMOLOGIA.

L' Etimologia insegna a *dedurre una parola da un' altra, i diversi accidenti de' nomi e de' verbi, e i varj significati d' uno stesso vocabolo*.

Degli ARTICOLI INGLESI.

Gl' Inglesi non hanno che due articoli, *a* e *the*.

L' articolo *the* non è soggetto ad alcun cambiamento, mutilazione, o aggiunta. I poeti qualche volta per comodo, e forse per biasimevole licenza l' hanno ridotto a *th'*, ma in prosa scrivesi e pronunciasi costantemente *the*.

L' articolo *a* si converte in *an* quando precede i nomi che cominciano con vocale.

Se dinanzi ai nomi che cominciano con *u* vocale si scrivesse questo articolo senza *n*, suonerebbe meglio al mio orecchio, perchè gl' Inglesi generalmente in principio di sillaba, come ho detto a suo luogo, pronunziano tal vocale come un Italiano pronunzia la sillaba *ju*, anzi come un Francese pronunzia la sillaba *yu*, così sarei tentato di scrivere *a university* e non *an university*; pure i loro migliori Scrittori hanno in tal caso scritto *an*; e quantunque io oda frequentemente nel discorso familiare tale articolo in tal caso non accompagnato dalla consonante *n*, pure tirato dall' autorità rispettabile di chi è da supporre sappia l' Inglese meglio di me, scrivo e pronunzio malgrado mio *an university* e non *a university*; Non credo però d' essere mal profeta predicando che col tempo quella *n* sarà bandita da quell' articolo in tal caso.

A, ha un significato indefinito, e vuol dire, *one*, cioè, *uno o una*, relativamente a *more*, più; come, *this is a good book*, questo è un buon libro, cioè, uno fra i libri che sono buoni; *he was killed by a sword*, egli fù ucciso da una spada; *this is a better book for a man than a boy*, questo è un Libro migliore per uno che sia uomo che non per uno che sia fanciullo; *an army might enter without any resistance*, un esercito potrebbe entrare senza ostacolo alcuno. In somma, questo articolo *a* o *an* corrisponde generalmente ai nostri *uno* o *una* quando non hanno significato risoluto e preciso.

Ne' casi in cui gl' Inglesi usano nel singolare l' articolo *a* o *an*, usano il plurale senz' articolo veruno, come *these are good books*, questi sono libri buoni, e lo stesso facciamo anche noi in Italiano.

Questo articolo i grammatici d' un secolo fa consigliarono a scriverlo *an* innanzi a voci comincianti con *h*, d' onde appare che gl' Inglesi allora aspiravano meno tal segno o lettera. Oggidì però dinanzi all' *h* procedente dal Latino, che non è aspirata da chi correttamente parla, l' articolo è *an*, e dinanzi all' *h* derivato dal Teutonico, che è aspirata da chi s' intende d' eleganza Inglese, l' articolo è *a*. Così gl' Inglesi moderni dicono *an honest man*, perchè *honest* viene dal Latino *honestus*, e dicono *a house*, perchè *house* viene dal Teutonico o vogliamo dire dall' antico Sassone *hus*.

Al leggitore Italiano sovvenga a questo proposito di quello che ho detto parlando nell' ortografia della lettera *h*, e se l' avesse già scordato lo rilegga, che quanto ho detto là spande qualche lume su quello che dico quì.

The ha un significato particolare e definito, come sovente i nostri articoli, *il, la, lo*. Questo si vede due volte in questo esempio tratto da' primi versi del Paradiso Perduto di Milton.

THE fruit
Of that forbidden tree, whose mortal taste
Brought death into the world,

Cioè, *quel particular frutto, e 'quel mondo in cui viviamo*. E così nella scrittura sacra è detto del creatore, che *he gives fodder for THE cattle, and green herbs for THE use of man*; cioè, *per quelle creature che sono irragionevoli e per l' uso di quello che chiamiamo uomo*.

The si usa indeclinabilmente tanto nel singolare quanto nel plurale, come in questo esempio tratto da Dryden.

I am as free as nature first made man,
Ere THE base laws of servitude began,
When wild in woods THE noble savage ran.

In tre casi i nomi s' usano senza l' articolo.

1. Ne' nomi propri, come *John, Alexander, Longinus, Shakspeare, Spenser, Jerusalem, Athens, Rome, London, Turin*, e simili.

2. Ne' nomi astratti, come *blackness, witchcraft, virtue, vice, beauty, ugliness, love, anger, good-nature, kindness*, e simili.

3. Ne' nomi che determinano assolutamente l' essere di qualche cosa, come in questo esempio, *this is not WINE, but BEER*; e in questo, *this is not BRASS, but STEEL*.

Nel primo e nel terzo caso noi pure non usiamo articolo.

De' NOMI SOSTANTIVI.

La relatività de' nomi alle parole che precedono o che sieguono, nella lingua Inglese non sono espresse da casi o cambiamenti di terminazioni, come in Latino: ma da articoli o preposizioni, come in Italiano. Talora però hanno un genitivo che termina in *s*, del quale farò parola poco più sotto, e dopo d' aver declinato un nome.

Singolare Mascolino.

Nom. <i>a</i> Master, <i>the</i> Master.	<i>Un</i> Maestro, <i>il</i> Maestro.
Gen. <i>of a</i> Master, <i>of the</i> Master.	<i>D' un</i> Maestro, <i>del</i> Maestro.
Dat. <i>to a</i> Master, <i>to the</i> Master.	<i>A un</i> Maestro, <i>al</i> Maestro.
Acc. <i>a</i> Master, <i>the</i> Master.	<i>Un</i> Maestro, <i>il</i> Maestro.
Voc. Master, O Master.	Maestro, O Maestro.
Abl. <i>from a</i> Master, <i>from the</i> Master.	<i>Da un</i> Maestro, <i>dal</i> Maestro.

I nomi femminini non hanno nè articoli nè preposizioni che li distinguano da mascolini, come hanno in Italiano, e così si dice *a mistress, the mistress, of a mistress, of the mistress*, eccetera.

Ho detto che i casi obliqui ne' nomi Inglese non sono distinti dal retto dalle loro terminazioni. Bisogna però osservare che talora il loro genitivo ha una terminazione sua propria in *'s* con un apostrofe che la precede; così che in

vece di dire *the strength of MAN* (la forza dell'uomo) dicono *man's strength*. Alcuni grammatici Inglesi credono ancora oggidì, e gli antichi grammatici loro l'han creduto altresì che questa sorte di genitivo non sia altro se non il pronome mascolino *his* abbreviato, ed incorporato col nome principale *man*, e in antiche scritture Inglesi si trova molto frequentemente scritto *the man his strength*. E' più probabile però che questo genitivo terminante in *'s* apostrofata, e senza alcuna assistenza di preposizione o d' articolo, sia il genitivo originale e naturale della loro lingua, e che non sia punto una unione o incorporo di quel pronome mascolino, perchè questo genitivo segnato con una *'s* ha anche luogo in nomi femminini; e sarebbe assurdo il credere che gl' Inglesi antichi avessero accoppiato un pronome mascolino ad un nome femminino, dicendosi anche genitivamente *woman's beauty* (la bellezza della donna) in vece di dire *the beauty of a woman*. Dunque il nome sostantivo *master*, declinato pur ora per dar un esempio delle loro declinazioni si potrebbe anco declinar così.

Singolare.	Plur.
Nom. <i>a master, the master.</i>	Nom. <i>masters, the masters.</i>
Gen. <i>master's.</i>	Gen. <i>masters'.</i>
Dat. <i>to a master, to the master, &c.</i>	Dat. <i>to masters, to the masters, &c.</i>

Anzi alcuni scrittori loro, più secondo il genio della loro lingua che secondo l'uso universalmente ricevuto, scrissero e scrivono al genitivo *masters*, senza curarsi neppure de' quell' apostrofo, dell' esistenza del quale non si può veramente dar ragione, quando si voglia addottare l' opinione che tale genitivo è naturale alla lingua, e non formato dall' abbreviato pronome *his*.

Il plurale de' nomi sostantivi è, generalmente parlando, presto formato, perchè basta aggiungere una semplice *s* al singolare, ed eccoti il plurale bello e fatto, *master* (*maestro*), *masters* (*maestri*), e questo vale tanto nel caso retto quanto negli obliqui.

Alcuni nomi di origine Teutonica mutano però la loro terminazione nel plurale; come *man*, *men*, *woman*, *women*; *mouse*, *mice*; *die*, *dice*; *child*, *children*; *goose*, *geese*; *tooth*, *teeth*; *penny*, *pence*; Non so però qual regola dare al lettore perchè sappia quando la terminazione plurale dev' essere in *s*, e quando no, perchè non ho mai potuto rintracciarne una che sia veramente universale e costante. Verbigrazia *fox* nel plurale fa *foxes*, e *ox* nel plurale è *oxen*; e siccome tanto *fox* quanto *ox* sono voci derivate dal Teutonico, non si sa cred' io da nessuno quare le loro terminazioni plurali non corrispondano alle loro terminazioni singolari.

Per vincere questa difficoltà bisogna che il leggitore Italiano abbia ricorso ad un' attenta osservazione nel legger libri Inglesi, o a qualche catalogo di tali sostantivi irregolari, che più d'una ve n'ha in alcune grammatiche, e che io non trascrivo qui perchè m'è stata prefissa la lunghezza di questa da chi mi paga per la fatica del farla.

Anticamente *eye* faceva al plurale *eyen*, e *shoe* faceva al plurale *shoen* e così molt' altri; oggi però si sono cambiati in *eyes*, *shoes*; e chi sa che coll' andare del tempo tutti o almeno la più parte de' sostantivi Inglesi non facciano la stessa metamorfosi, tanto per comodo de' nativi che per quello de' forestieri, come *eye* e *shoe*, hanno fatto?

Notisi che *brother* (fratello) fa al plurale *brothers* e *brethren*. *Brothers* è usato nel discorso comune, *brethren* è dello stile sacro e solenne.

Voci che finiscono con una *f* nel singolare, formano il loro plurale in *ves*, come *loaf*, plur. *loaves*; *calf*, plur. *calves*; *leaf*, plur. *leaves*. A questa regola però vi sono eccezzuazioni, perchè *hoof*, *roof*, *proof*, *relief*, *mischief*, *puff*, *cuff*, *dwarf*,

handkerchief, grief, e molt' altre non fanno altro che pigliare un *s* per formarsi il plurale, *hoofs, roofs, proofs, reliefs*, &c.

Degli ADDIETTIVI.

Gli addiettivi nella lingua Inglese sono assolutamente indeclinabili, non avendo nè genere, nè numero, nè caso, così che *good* (*buono*) s' aggiunge a uomo, a donna, a uomini, a donne, senza alcuna distinzione in tutti i casi o retti o obliqui.

Il comparativo generalmente si forma aggiungendo *er* al positivo, e il superlativo si fa aggiungendo *est*, come *FAIR, fairer, fairest*; *SWEET, sweeter, sweetest*; *LOW, lower, lowest*; *HIGH, higher, highest*; *LOVELY, lovelier, loveliest*.

Alcuni comparativi e superlativi si formano irregolarmente, come *GOOD, better, best*; *BAD, worse, worst*; *LITTLE, less, least*; *NEAR, nearer, nearest*, o *next*; *MUCH, more, most*; *MANY, more, most*; *LATE, later, latest*, o *last*.

Alcuni comparativi formano il superlativo con aggiungere *most*; come *NETHER, nethermost*; *OUTER, outmost*; *UNDER, undermost*; *UP, upper, uppermost*; *FORE, former, foremost*.

Most è alcuna volta aggiunto a sostantivo onde diventi un addiettivo superlativo, come *topmost, southmost*.

Alcuni addiettivi non ammettono terminazione diversa per formarsi i comparativi e i superlativi, i quali sono formati da *more* e da *most*, come *BENEVOLENT, more benevolent, most benevolent*.

Tutti gli addiettivi soffrono di divenire comparativi e superlativi con accompagnarsi a *more* e a *most*, anche quando hanno comparativi e superlativi formati regolarmente, come *fair*, comparativo *fairer*, o *more fair*; superlativo *fairest*, o *most fair*.

La formazione de' comparativi e de' superlativi in Inglese è cosa piena di molta incertezza, e da nun ridursi mai a regole assolute, dipendendo molto dall' agevolezza nel pronunziarli, o dalla piacevolezza del loro suono.

Gli addiettivi di non più di due sillabe però sono comunemente e comparati e superlativati regolarmente in *er* e in *est*, come dicemmo nel primo paragrafo; e gli altri polisillabi sono per lo più comparati o fatti superlativi con gli avverbi *more* e *most*, come *DEPLORABLE, more deplorable, most deplorable*.

Gli addiettivi dissillabi terminanti in *some, ful, ing, ous, less, ed, id, al, ent, ain, ive, dy, fy, my, ny, py, ry*, generalmente parlando, formano il comparativo con *more*, e il superlativo con *most*. Riguardo però a i due ultimi i *py* e in *ry*, bisogna eccettuarne almeno gli addiettivi *happy* e *hoary*.

Tuttavia esempi contrari a questa regola si possono trarre da scrittori celebri. Milton, verbigratzia, da *shady*, formò il superlativo *shadiest*; da *powerful* formò *powerfullest*; da *virtuous* formò *virtuosest*; da *famous*, formò *famousest*. Baccone da Verulamio da *mortal* formò *mortalest*; Beniamino Jonson da *wretched* formò *wretcheder*; e così altri autori l' hanno fatta come venne loro in capriccio; ma dal pigliarsi di coteste libertà ogni Italiano che vorrà scrivere Inglese, si guardi almeno s'intanto che possa scrivere in questa lingua cose uguali a quelle di Milton, di Baccone, e di Beniamino Jonson.

Le terminazioni in *ish* si possono considerare come comparativi diminuenti, come *black* (*nero*), *blackish* (*alquanto nero*); *salt* (*salato*), *saltish* (*alquanto salato*); *late* (*tardi*), *latish* (*alquanto tardi*); questi addiettivi in *ish* noi li formiamo sovente con varietà di terminazioni, e per *blackish* diremmo *nericcio*; per *saltish*, *salmastro*; e per *latish*, *tardetto*.

De' PRONOMI.

I pronomi personali in Inglese sono soggetti a varie irregolarità nelle loro inflessioni.

<i>Singolare.</i>		<i>Plurale.</i>
<i>Nominativo</i>	I.	We.
<i>Casi obliqui</i>	Me.	Us.
<i>Nominativo</i>	Thou.	Ye.
<i>Casi obliqui</i>	Thee.	You.

You è comunemente usato dagl' Inglese moderni per *ye*, specialmente da quelli che scrivono o parlano con bella creanza, adoperando la seconda persona del plurale e non la prima, in vece della seconda persona del singolare, come *you are my friend*, invece di *ye are my friend*.

<i>Singolare.</i>		<i>Plurale.</i>	
<i>Nominativo</i>	He.	They.	} Applicato a' mascolini.
<i>Obliquo</i>	Him.	Them.	
<i>Nom.</i>	She.	They.	} Applicato a' femminini.
<i>Obl.</i>	Her.	Them.	
<i>Nom.</i>	It.	They.	} Applicato a' neutri, o a cose.
<i>Obl.</i>	Its.	Them.	

Gl' Inglese, in vece di *it*, usavano anticamente *he*; e, in vece di *its*, usavano *his*.

I pronomi possessivi, a simiglianza d' altri addiettivi, non hanno nè casi, nè differenze nelle terminazioni.

Il possessivo della prima persona è *my*, *mine*, *our*, *ours*; della seconda è *thy*, *thine*; *your*, *yours*; e della terza, *his*, che deriva da *he*, e *her*, *hers*; che derivano irregolarmente da *she*, e nel plurale, *their*, *theirs*, tanto pel mascolino quanto pel femminino e pel neutro.

Pronomi relativi sono *who*, *which*, *what*, *whether*, *whosoever*, *whatsoever*.

*Singolare e.**Plurale.*

<i>Nominativo</i>	Who.
<i>Genitivo</i>	Whose.
<i>Altri obliq.</i>	Whom.
<i>Nom.</i>	Which.
<i>Gen.</i>	Of which o whose.
<i>Altri obl.</i>	Which.

Who è oggi usato parlando di persone, e *which* parlando di cose. Anticamente però si usavano indistintamente l' uno per l' altro.

Whose è il genitivo poetico anzi che il regolare di *which*.

Whether, comincia a diventare una voce antica in Inglese, ed è usato solamente nel nominativo e nell' accusativo; nè ha plurale, essendo applicato soltanto a uno d' un numero, il qual numero è per lo più di *due*, come in questi esempi; *Whether of these is left I know not*, cioè *whether of these two*; *whether shall I choose?* cioè *choose of these two?*

What, sia relativo, sia interrogativo, non ammette cangiamento di terminazione.

Whosoever, e *whatsoever*, essendo composti di *who* o *what* e *soever*, sieguono la regola de' loro primitivi, cioè di *who* e *what*.

	Singolare.	Plurale.
In tutti i casi	This.	These.
	That.	Those.
	Other.	Others.
	Whether.	Whether.

Il plurale *others* non è usato se non quando si riferisce a sostantivo precedente ; perciò si direbbe *I have sent OTHER horses*, e non *others horses*, perchè *horses* in questo caso non precede altro sostantivo ; ma poi si direbbe *I have not sent the same horses but OTHERS*, perchè *others* riferisce a' cavalli diversi da quelli mandati.

Another, non essendo altro che un composto di *an* (articolo singolare) e *other*, non ha plurale.

Here, *there*, e *where* congiunti con certe particelle, sono usati come relativi e pronomi molto somiglianti a' genitivi, e agli ablativi, come *hereof*, *herein*, *herewith*, *thereof*, *therein*, *thereby*, *thereto*, *thereupon*, *whereof*, *wherby*, e altri.

Therefore e *wherefore*, che originalmente erano *there for*, cioè *for that* ; e *where for*, cioè *for which*, sono ora annoverati fra le congiunzioni, e continuano ad essere usati.

Di questi pronomi composti ve n' ha alcuni che gl' Inglesi cominciano a lasciar andar in disuso, come *hitherto*, *whereto*, ed alcuni altri ; cosa che pare a me non dovrebbero fare, perchè, oltre allo essere analoghi, sono molto propri e comodi ; ma i loro tristi traduttori dal Francese, egualmente che que' tanti maladetti nostri, che tuttodi svergognano le stampe Veneziane specialmente, vanno allontanandosi del vero genio del loro idioma, ed essendo letti con avidità dagl' ignoranti, che in tutti i paesi sono sempre i più numerosi, i loro vocabolacci e le loro frasacce forestiere si diffondono poi nella conversazione, e da quella passano nelle scritture anche de' giudiziosi, che sono sforzati a addottare que' modacci impropri per trovar leggitori ; e così le lingue si corrompono a poco a poco, e diventano quasi dialetti d' altre lingue, invece di conservare l' indole loro natia ; ma così va 'l mondo, non c' è rimedio.

Therefore e *wherefore* sono entrambi relativi tanto agli antecedenti singolari che a' plurali.

Gl' Inglesi adoprano due altre voci in congiunzione solamente co' pronomi e queste son *own* e *self*.

Own è congiunto co' pronomi possessivi tanto nel singolare quanto nel plurale, come *my own hand*, *our own house*. Questa voce aggiunge enfasi, o forza e precisione al discorso, come *I live in my own house*, che esprime molto più che non si dicesse *I live in my house*, e così *I did this with my own hand*, è più espressivo che se si dicesse *I did this with my hand*.

Self, è congiunto a' pronomi possessivi, come *myself*, *yourselves*, e talora a' pronomi personali, come *himself*, *itself*, *themselves* ; e non meno che *own* aggiunge enfasi al discorso e gli somministra forza e precisione, come *I did this myself*, molto più enfatico, forte, e preciso, che non se si dicesse semplicemente *I did this*. *Selves*, plurale di *self*, forma talora un pronome reciproco, come *we hurt ourselves by vain rage*.

Himself, *itself*, *themselves*, suppone un celebre grammatico chiamato *Wallis*, non sieno altro che voci corrotte da *his self*, *it self*, e *their selves*, così che *self* sia costantemente un sostantivo. Questa osservazione pare giusta, poichè si

dice *he came himself* ; *himself shall do this* : dove *himself* non può essere accusativo quantunque *him* lo sia.

De' VERBI.

I verbi Inglesi sono attivi, come *I love* ; o neutri, come *I languish*. I neutri si formano come gli attivi.

Molti verbi che indicano *azione*, si trasformano sovente in verbi neutri che significano *costume* o *stato*. Verbigrazia dal verbo *I love*, si forma il verbo *I am in love* ; o dal verbo *I strike*, si forma il verbo *I am now striking* ; come gl' Italiani dal verbo *mangiare* formano il verbo *star mangiando*, e simili.

I verbi Inglesi, in vece di quella immensa farragine di terminazioni che hanno i nostri, non hanno che due sole terminazioni, una nel tempo presente, l' altra nel preterito semplice. Gli altri tempi sono composti da' verbi ausiliarj *have*, *shall*, *will*, *let*, *may*, *can*, e l' infinito dal verbo attivo e neutro.

La voce passiva è formata col congiungere il participio preterito col verbo sostantivo ; come *I am loved*.

TO HAVE, *Avere*.

INDICATIVO.

Tempo Presente.

Sing.	<i>I have.</i>	Io ho.
	<i>Thou hast.</i>	Tu hai.
	<i>He has.</i>	Egli ha.

Osservisi che *has* è corrotto da *hath*, che non s' usa quasi più se non in chiesa e in cose ecclesiastiche.

Plur.	<i>We have.</i>	Noi abbiamo.
	<i>Ye (o you) have.</i>	Voi avete.
	<i>They have.</i>	Eglino hanno.

Preterito semplice, che corrisponde altresì ad uno de' nostri preteriti imperfetti.

Sing.	<i>I had.</i>	Io aveva, e anche io ebbi.
	<i>Thou hadst.</i>	Tu avevi, e tu avesti.
	<i>He had.</i>	Egli aveva, e egli ebbe.
Plur.	<i>We had.</i>	Noi avevamo, e noi avemmo.
	<i>Ye had.</i>	Voi avevate, e voi aveste.
	<i>They had.</i>	Eglino avevano, e eglino ebbero, o ebbono.

Preterito composto, che corrisponde altresì ad uno de' nostri preteriti imperfetti.

Sing.	<i>I have had.</i>	Io ho avuto, e anche io ebbi.
	<i>Thou hast had.</i>	Tu hai avuto, e tu avesti.
	<i>He has had.</i>	Egli ha avuto, e egli ebbe.
Plur.	<i>We have had.</i>	Noi abbiamo avuto, e noi avemmo.
	<i>Ye have had.</i>	Voi avete avuto, e voi aveste.
	<i>They have had.</i>	Eglino hanno avuto, e eglino ebbero.

Preterito più che perfetto, che corrisponde anco a due de' nostri preteriti imperfetti.

Sing.	<i>I had had.</i>	Io aveva ad anche io avrei o ebbi avuto.
	<i>Thou hadst had.</i>	Tu avevi, e tu avresti, o avesti avuto.
	<i>He had had.</i>	Egli aveva, e egli avrebbe o ebbe avuto.
Plur.	<i>We had had.</i>	Noi avevamo, e noi avremmo o avemmo avuto.
	<i>Ye had had.</i>	Voi avevate, e voi avreste o aveste avuto.
	<i>They had had.</i>	Eglino avevano, e eglino avrebbero o ebbero avuto.

Futuro.

Sing.	<i>I shall have.</i>	Io avrò.
	<i>Thou shalt have.</i>	Tu avrai.
	<i>He shall have.</i>	Egli avrà.
Plur.	<i>We shall have.</i>	Noi avremo.
	<i>Ye shall have.</i>	Voi avrete.
	<i>They shall have.</i>	Eglino avranno.

Secondo Futuro, o Futuro Positivo.

Sing.	<i>I will have.</i>	Io avrò, io voglio, e io voglio avere.
	<i>Thou wilt have.</i>	Tu avrai, tu vuoi, e tu vuoi avere.
	<i>He will have.</i>	Egli avrà, egli vuole, e egli vuole avere.
Plur.	<i>We will have.</i>	Noi avremo, noi vogliamo, e noi vogliamo avere.
	<i>Ye will have.</i>	Voi avrete, voi volete, e voi volete avere.
	<i>They will have.</i>	Eglino avranno, eglino vogliono, e eglino vogliono avere.

IMPERATIVO.

Sing.	<i>Have, or have thou.</i>	Abbi, e abbi tu.
	<i>Let him have.</i>	Abbia, e abbia egli.
Plur.	<i>Let us have, or have we.</i>	Abbiamo, e abbiamo noi.
	<i>Have ye.</i>	Abbiate, e abbiate voi.
	<i>Let them have.</i>	Abbiano, e abbiano eglino.

CONGIUNTIVO.

Presente.

Sing.	<i>I have.</i>	Io abbia.	Plur.	<i>We have.</i>	Noi abbiamo.
	<i>Thou hast.</i>	Tu abbia.		<i>Ye have.</i>	Voi abbiate.
	<i>He hath.</i>	Egli abbia.		<i>They have.</i>	Eglino abbiano.

Il *Preterito semplice* è come quello dell' *Indicativo*.

Preterito Composto.

Sing.	<i>I have had.</i>	Io abbia avuto.	Plur.	<i>We have had.</i>	Noi abbiamo avuto.
	<i>Thou hast had.</i>	Tu abbia avuto.		<i>Ye have had.</i>	Voi abbiate avuto.
	<i>He hath had.</i>	Egli abbia avuto.		<i>They have had.</i>	Eglino abbiano avuto.

Il *Primo Futuro semplice* è *I shall have*, come il *Futuro* dell' *Indicativo*, che in Italiano si conjuga *avrò, avrai, &c.*

Il secondo *Futuro semplice* è altresì come quello dell' *Indicativo* *I will have, io avrò, o io voglio avere.*

Futuro Composto.

Sing.	<i>I shall have had.</i>	Io avrò avuto.	Plur.	<i>We shall have had.</i>	Noi avremo avuto.
	<i>Thou shalt have had.</i>	Tu avrai avuto.		<i>Ye shall have had.</i>	Voi avrete avuto.
	<i>He shall have had.</i>	Egli avrà avuto.		<i>They shall have had.</i>	Eglino avranno avuto.

Gl' *Inglese* hanno il seguente modo che chiamano *POTENZIALE*, espresso coll' ajuto de' verbi *may* e *can* nel presente, e *might, could, o should* nel preterito unito coll' infinito del verbo; e questo verbo non ha propriamente che il *modo indicativo*, e si conjuga così.

Presente.

Sing.	<i>I may have.</i>	Io posso avere.	Plur.	<i>We may have.</i>	Noi possiamo avere.
	<i>Thou mayst have.</i>	Tu puoi avere.		<i>Ye may have.</i>	Voi potete avere.
	<i>He may have.</i>	Egli può avere.		<i>They may have.</i>	Eglino possono avere.

Preterito.

Sing.	<i>I might have.</i>	Io potei, or potetti avere.
	<i>Thou might'st have.</i>	Tu potesti avere.
	<i>He might have.</i>	Egli potè, or potette avere.
Plur.	<i>We might have.</i>	Noi potemmo avere.
	<i>Ye might have.</i>	Voi poteste avere.
	<i>They might have.</i>	Eglino poterono avere.

Preterito Imperfetto.

Sing.	<i>I could have.</i>	Io poteva e potei avere.
	<i>Thou could'st have.</i>	Tu potevi e potesti avere.
	<i>He could have.</i>	Egli poteva e potè avere.
Plur.	<i>We could have.</i>	Noi potevamo e potemmo avere.
	<i>Ye could have.</i>	Voi potevate e poteste avere.
	<i>They could have.</i>	Eglino potevano e poterono avere.

Il seguente Tempo pizzica del *Futuro*, quantunque alcuni Grammatici Inglese lo chiamino *Preterito* o *Preterito imperfetto*.

Sing.	<i>I should have.</i>	Io dovrei avere.
	<i>Thou should'st have.</i>	Tu dovresti avere.
	<i>He should have.</i>	Egli dovrebbe avere.
Plur.	<i>We should have.</i>	Noi dovremmo avere.
	<i>Ye should have.</i>	Voi dovrete avere.
	<i>They should have.</i>	Eglino dovrebbero avere.

Preterito Composto.

Sing.	<i>I could have had.</i>	Io poteva, o avrei potuto avere.
	<i>Thou could'st have had.</i>	Tu potevi, o avresti potuto avere.
	<i>He could have had.</i>	Egli poteva, o avrebbe potuto avere.
Plur.	<i>We could have had.</i>	Noi potevamo, o avremmo potuto avere.
	<i>Ye could have had.</i>	Voi potevate, o avreste potuto avere.
	<i>They could have had.</i>	Eglino potevano, o avrebbero potuto avere.

Preterito Composto.

Sing.	<i>I should have had.</i>	Io avrei dovuto avere.
	<i>Thou should'st have had.</i>	Tu avresti dovuto avere.
	<i>He should have had.</i>	Egli avrebbe dovuto avere.
Plur.	<i>We should have had.</i>	Noi avremmo dovuto avere.
	<i>Ye should have had.</i>	Voi avreste dovuto avere.
	<i>They should have had.</i>	Eglino avrebbero dovuto avere.

Nel medesimo modo si usa *might*. *I might have had, io avrei potuto avere, thou mightst have had, tu avresti potuto avere, he might, &c.*

INFINITO.

Presente, <i>To have.</i>	Avere.
Preterito, <i>To have had.</i>	Aver avuto.
Participio presente, <i>Having.</i>	Che ha; avendo.
Participio preterito, <i>Had.</i>	Avuto.

Gl' Inglese accoppiano anche *ought*, che è verbo imperfetto, all' infinito del verbo ausiliario *to have*, egualmente che a molt' altri verbi attivi e neutri.

Presente, o Futuro.

Sing.	<i>I ought to have.</i>	Io dovrei avere.
	<i>Thou ought'st to have.</i>	Tu dovresti avere.
	<i>He ought to have.</i>	Egli dovrebbe avere.
Plur.	<i>We ought to have.</i>	Noi dovremmo avere.
	<i>Ye ought to have.</i>	Voi dovrete avere.
	<i>They ought to have.</i>	Eglino dovrebbero avere.

Preterito.

Sing.	<i>I ought to have had.</i>	Io avrei dovuto avere, o io doveva aver avuto.
	<i>Thou ought'st to have had.</i>	Tu avresti dovuto avere, o tu dovevi aver avuto.
	<i>He ought to have had.</i>	Egli avrebbe dovuto avere, o egli doveva aver avuto.
Plur.	<i>We ought to have had.</i>	Noi avremmo dovuto avere, o noi dovevamo aver avuto.
	<i>Ye ought to have had.</i>	Voi avreste dovuto avere, o voi dovevate aver avuto.
	<i>They ought to have had.</i>	Eglino avrebbero dovuto avere, o eglino dovevano aver avuto.

Noti però lo studente Italiano, che i Grammatici Inglesi non mettono qui questo modo del verbo *to have* coll' ausiliario imperfetto *ought* come ho fatt' io, che essi lo considerano per quel che io posso supporre come non appartenente a questa parte della grammatica. Io però ho giudicato proprio accennarlo qui per contribuire allo spianamento di quelle difficoltà che i miei paesani possono incontrare nello studio di questa Lingua, e che ho incontrate io quando m' accinsi ad impararla; onde i signori Inglesi avrebbero il torto se mi biasimassero d' aver messo la falce in un campo in cui essi non la mettono, che io l' ho fatto a fin di bene, o non per disapprovare il metodo altrui.

ESEMPIO DE' VERBI ATTIVI.

To LOVE, *Amare.*

INDICATIVO.

Tempo Presente.

Sing.	<i>I love.</i>	Io amo.
	<i>Thou lovest.</i>	Tu ami.
	<i>He loves.</i>	Egli ama.

Anticamente scrivevano *loveth*, in vece di *loves*, comè dissi parlando della terza persona singolare del presente dell' indicativo di *to have*. Ora quella terminazione in *th* tanto in prosa che in verso in tutti i verbi ha dato luogo alla moderna in *s*, forse con poco vantaggio della lingua Inglese, che così ha avuta un' aggiunta di suoni sibilanti, in vece di que' dolci suoni che in tal caso aveva.

Plur.	<i>We love.</i>	Noi amiamo.
	<i>Ye love.</i>	Voi amate.
	<i>They love.</i>	Eglino amano.

Preterito semplice, che corrisponde anche a uno de' nostri preteriti imperfetti.

Sing.	<i>I loved.</i>	Io amava, e anche	Io amai.
	<i>Thou lovedst.</i>	Tu amavi, e	Tu amasti.
	<i>He loved.</i>	Egli amava, e	Egli amò.
Plur.	<i>We loved.</i>	Noi amavamo, e	Noi amammo.
	<i>Ye loved.</i>	Voi amavate, e	Voi amaste.
	<i>They loved.</i>	Eglino amavano, e	Eglino amarono.

Preterito composto, che corrisponde altresì ad uno de' nostri preteriti imperfetti.

Sing.	<i>I have loved.</i>	Io ho amato, e anche	Io amai.
	<i>Thou hast loved.</i>	Tu hai amato, e	Tu amasti.
	<i>He has loved.</i>	Egli ha amato, e	Egli amò.
Plur.	<i>We have loved.</i>	Noi abbiamo amato, e	Noi amammo.
	<i>Ye have loved.</i>	Voi avete amato, e	Voi amaste.
	<i>They have loved.</i>	Eglino hanno amato, e	Eglino amarono.

Preterito più che perfetto, che corrisponde anco a due de' nostri preteriti imperfetti.

Sing.	<i>I had loved.</i> <i>Thou hadst loved.</i> <i>He had loved.</i>	Io aveva amato, <i>ed anche</i> Tu avevi amato, <i>e</i> Egli aveva amato, <i>e</i>	Io avrei, o Io ebbi amato. Tu avresti, o Tu avesti amato. Egli avrebbe, o Egli ebbe amato.
Plur.	<i>We had loved.</i> <i>Ye had loved.</i> <i>They had loved.</i>	Noi avevamo amato, <i>e</i> Voi avevate amato, <i>e</i> Egolino avevano amato, <i>e</i>	Noi avremmo, o Noi avemmo amato. Voi avreste, o Voi aveste amato. Egolino avrebbero, o Egolino ebbero amato.

Futuro.

Sing.	<i>I shall love.</i> <i>Thou shalt love.</i> <i>He shall love.</i>	Io amerò. Tu amerai. Egli amerà.	Plur.	<i>We shall love.</i> <i>Ye shall love.</i> <i>They shall love.</i>	Noi ameremo. Voi amerete. Egolino ameranno.
-------	--	--	-------	---	---

Secondo Futuro.

Sing.	<i>I will love.</i> <i>Thou wilt love.</i> <i>He will love.</i>	Io amerò, o io voglio amare. Tu amerai, o tu vuoi amare. Egli amerà, o egli vuole amare.
Plur.	<i>We will love.</i> <i>Ye will love.</i> <i>They will love.</i>	Noi ameremo, o noi vogliamo amare. Voi amerete, o voi volete amare. Egolino ameranno, o egolino vogliono amare.

IMPERATIVO.

Sing.	<i>Love, love thou.</i> <i>Let him love.</i>	Ama, o ama tu. Ami, o ami egli.	Plur.	<i>Love, let us love.</i> <i>Love ye.</i> <i>Let them love.</i>	Amiamo, o amiamo noi. Amate, o amate voi. Amino, o amino egolino.
-------	---	------------------------------------	-------	---	---

CONGIUNTIVO.

Presente.

Sing.	<i>I love.</i> <i>Thou love.</i> <i>He loves.</i>	Io ami. Tu ami. Egli ami.	Plur.	<i>We love.</i> <i>Ye love.</i> <i>They love.</i>	Noi amiamo. Voi amiate. Egolino amino.
-------	---	---------------------------------	-------	---	--

Il *Preterito semplice* è come quello dell' *Indicativo*, *I loved*, che in Italiano si cónjuga *amai, amasti, &c.*

Preterito Composto.

Sing.	<i>I have loved.</i> <i>Thou hast loved.</i> <i>He hath or has loved.</i>	Io abbia amato. Tu abbia amato. Egli abbia amato.	Plur.	<i>We have loved.</i> <i>Ye have loved.</i> <i>They have loved.</i>	Noi abbiamo amato. Voi abbiate amato. Egolino abbiano amato.
-------	---	---	-------	---	--

Il primo *Futuro semplice* è come quello dell' *Indicativo*, *I shall love*, *io amerò*.

Il secondo *Futuro semplice* è altresì come quello dell' *Indicativo*, *I will love*, *io amerò*, o *io voglio amare*.

Futuro Composto.

Sing.	<i>I shall have loved.</i> <i>Thou shalt have loved.</i> <i>He shall have loved.</i>	Io avrò amato. Tu avrai amato. Egli avrà amato.
Plur.	<i>We shall have loved.</i> <i>Ye shall have loved.</i> <i>They shall have loved.</i>	Noi avremo amato. Voi avrete amato. Egolino avranno amato.

POTENZIALE.

Questo verbo propriamente non ha che il modo *Indicativo*.

*Presente.**Che pizzica un pochino di Futuro.*

Sing.	<i>I may love.</i> <i>Thou mayst love.</i> <i>He may love.</i>	Io posso amare. Tu puoi amare. Egli può amare.	Plur.	<i>We may love.</i> <i>Ye may love.</i> <i>They may love.</i>	Noi possiamo amare. Voi potete amare. Egolino possono amare.
-------	--	--	-------	---	--

Dico che questo verbo pizzica talora del *Futuro*, come verbigrazia in questo caso: *she is good, and I MAY perhaps LOVE her*: e in quest' altro. *Will you love him? I don't know but I may*; cioè *I MAY LOVE him*.

Preterito.

Sing.	<i>I might love.</i> <i>Thou might'st love.</i> <i>He might love.</i>	Io potrei amare, o io amerei. Tu potresti amare, o tu ameresti Egli potrebbe amare, o egli amerebbe.
Plur.	<i>We might love.</i> <i>Ye might love.</i> <i>They might love.</i>	Noi potremmo amare, o noi ameremmo. Voi potreste amare, o voi amereste. Egolino potrebbero amare, o egolino amerebbero.

Presente.

Sing.	<i>I can love.</i> <i>Thou canst love.</i> <i>He can love.</i>	Io posso amare. Tu puoi amare. Egli può amare.	Plur.	<i>We can love.</i> <i>Ye can love.</i> <i>They can love.</i>	Noi possiamo amare. Voi potete amare. Egolino possono amare.
-------	--	--	-------	---	--

Preterito.

Sing.	<i>I could love.</i> <i>Thou could'st love.</i> <i>He could love.</i>	Io poteva, e potetti amare. Tu potevi, e potesti amare. Egli poteva, e poté amare.
Plur.	<i>We could love.</i> <i>Ye could love.</i> <i>They could love.</i>	Noi potevamo, e potemmo amare. Voi potevate, e poteste amare. Egolino potevano, e poterono, o potettero amare.

Il seguente tempo ha un poco del *Futuro*, quantunque alcuni Grammatici Inglese lo chiamino *Preterito* o *Preterito Imperfetto*.

Sing.	<i>I should love.</i> <i>Thou should'st love.</i> <i>He should love.</i>	Io dovrei amare. Tu dovresti amare. Egli dovrebbe amare.	Plur.	<i>We should love.</i> <i>Ye should love.</i> <i>They should love.</i>	Noi dovremmo amare. Voi dovrete amare. Egolino dovrebbero amare.
-------	--	--	-------	--	--

Preterito Composto.

Sing.	<i>I could have loved.</i> <i>Thou could'st have loved.</i> <i>He could have loved.</i>	Io poteva, o avrei potuto amare. Tu potevi, o avresti potuto amare. Egli poteva, o avrebbe potuto amare.
Plur.	<i>We could have loved.</i> <i>Ye could have loved.</i> <i>They could have loved.</i>	Noi potevamo, o avremmo potuto amare. Voi potevate, o avreste potuto amare. Egolino potevano, o avrebbero potuto amare.

Preterito Composto.

Sing.	<i>I should have loved.</i> <i>Thou should'st have loved.</i> <i>He should have loved.</i>	Io avrei dovuto amare. Tu avresti dovuto amare. Egli avrebbe dovuto amare.
Plur.	<i>We should have loved.</i> <i>Ye should have loved.</i> <i>They should have loved.</i>	Noi avremmo dovuto amare. Voi avreste dovuto amare. Egolino avrebbero dovuto amare.

Nel medesimo modo si usa *might*. *I might have loved, Io avrei potuto amare*; *Thou mightst have loved, tu avresti potuto amare*, *he might, &c.*

INFINITO.

Presente, <i>To love.</i>	Amare.
Preterito, <i>To have loved.</i>	Aver amato.
Participio presente, <i>Loving.</i>	Che ama, amando, amante.
Participio preterito, <i>Loved.</i>	Amato.

Metterò anche quì l' *Infinito* accoppiato col verbo imperfetto *ought*, per dare un'idea della maniera con cui gl' Inglesi l' usano.

INDICATIVO.

Sing. <i>I ought to love.</i>	Io dovrei amare.	Plur. <i>We ought to love.</i>	Noi dovremmo amare.
<i>Thou ought'st to love.</i>	Tu dovresti amare.	<i>Ye ought to love.</i>	Voi dovrete amare.
<i>He ought to love.</i>	Egli dovrebbe amare.	<i>They ought to love.</i>	Eglino dovrebbero amare.

Preterito.

Sing. <i>I ought to have loved.</i>	Io avrei dovuto amare, o io doveva aver amato.
<i>Thou ought'st to have loved.</i>	Tu avresti dovuto amare, o tu dovevi aver amato.
<i>He ought to have loved.</i>	Egli avrebbe dovuto amare, o egli doveva aver amato.
Plur. <i>We ought to have loved.</i>	Noi avremmo dovuto amare, o noi dovevamo aver amato.
<i>Ye ought to have loved.</i>	Voi avreste dovuto amare, o voi dovevate aver amato.
<i>They ought to have loved.</i>	Eglino avrebbero dovuto amare, o eglino dovevano aver amato.

Vedasi quello che ho detto, dopo la conjugazione del verbo, *to have*, a proposito di *ought*.

Il *passivo* è formato dall' unione del *participio preterito loved*, co' modi del verbo ausiliario *TO BE*, *essere*, perciò lo metterò quì.

INDICATIVO.

Sing. <i>I am.</i>	Io sono.	Plur. <i>We are.</i>	Noi siamo.
<i>Thou art.</i>	Tu sei.	<i>Ye are.</i>	Voi siete.
<i>He is.</i>	Egli è.	<i>They are.</i>	Eglino sono.

In vece di, *we are*, *ye are*, *they are*, dicevasi anticamente, *we be*, *ye be*, *they be*. Ora *be* è affatto fuor d' uso in questo caso, e chi l' adopera è considerato come scorretto.

Preterito.

Sing. <i>I was.</i>	Io era, o io fui.	Plur. <i>We were.</i>	Noi eravamo, o noi fummo.
<i>Thou wast, or wert.</i>	Tu eri, o tu fosti.	<i>Ye were.</i>	Voi eravate, o voi foste.
<i>He was.</i>	Egli era, o egli fù.	<i>They were.</i>	Eglino erano, o eglino furono.

Alcuni scorrettamente parlando o scrivendo dicono, *I were*, invece di, *I was*. *Wert*, è anche da fuggirsi nell' *indicativo*, appartenendo propriamente al *soggiuntivo*.

Preterito Composto.

Sing. <i>I have been.</i>	Io sono stato.	Plur. <i>We have been.</i>	Noi siamo stati.
<i>Thou hast been.</i>	Tu sei stato.	<i>Ye have been.</i>	Voi siete stati.
<i>He has been.</i>	Egli è stato.	<i>They have been.</i>	Eglino sono stati.

Preterito più che perfetto.

Sing. <i>I had been.</i>	Io era stato.	Plur. <i>We had been.</i>	Noi eravamo stati.
<i>Thou hadst been.</i>	Tu eri stato.	<i>Ye had been.</i>	Voi eravate stati.
<i>He had been.</i>	Egli era stato.	<i>They had been.</i>	Eglino erano stati.

Futuro.

Sing. <i>I shall be.</i>	Io sarò.	Plur. <i>We shall be.</i>	Noi saremo.
<i>Thou shalt be.</i>	Tu sarai.	<i>Ye shall be.</i>	Voi sarete.
<i>He shall be.</i>	Egli sarà.	<i>They shall be.</i>	Eglino saranno.

Futuro Positivo.

Sing.	<i>I will be.</i>	Io sarò, o io voglio essere.
	<i>Thou wilt be.</i>	Tu sarai, o tu vuoi essere.
	<i>He will be.</i>	Egli sarà, o egli vuol essere.
Plur.	<i>We will be.</i>	Noi saremo, o noi vogliamo essere.
	<i>Ye will be.</i>	Voi sarete, o voi volete essere.
	<i>They will be.</i>	Eglino saranno, o eglino vogliono essere.

IMPERATIVO.

Sing.	<i>Be thou.</i>	Sia, o sia tu.	Plur.	<i>Let us be.</i>	Siamo, o siamo noi.
	<i>Let him be.</i>	Sia, o sia egli.		<i>Be ye.</i>	Siate, o siate voi.
				<i>Let them be.</i>	Sieno, o sieno eglino.

*CONGIUNTIVO.**Presente.*

Sing.	<i>I be.</i>	Io sia.	Plur.	<i>We be.</i>	Noi siamo.
	<i>Thou beest.</i>	Tu sia.		<i>You be.</i>	Voi siate.
	<i>He be.</i>	Egli sia.		<i>They be.</i>	Eglino sieno.

Preterito.

Sing.	<i>I were.</i>	Io fossi.	Plur.	<i>We were.</i>	Noi fossimo.
	<i>Thou wert.</i>	Tu fossi.		<i>Ye were.</i>	Voi foste.
	<i>He were.</i>	Egli fosse.		<i>They were.</i>	Eglino fossero.

Ho detto che alcuni scorrettamente usano *were*, in vece di *was*, nella *prima persona dell' indicativo preterito*. E qui dirò che altri scorrettamente pure usano *was*, in vece di *were*, nella *prima persona del congiuntivo preterito*.

Preterito Composto.

Sing.	<i>I have been.</i>	Io sia stato, o io fossi stato.
	<i>Thou hast been.</i>	Tu sia stato, o tu fossi stato.
	<i>He hath, or has been.</i>	Egli sia stato, o egli fosse stato.
Plur.	<i>We have been.</i>	Noi siamo stati, o noi fossimo stati.
	<i>Ye have been.</i>	Voi siate stati, o voi foste stati.
	<i>They have been.</i>	Eglino sieno stati, o eglino fossero stati.

Futuro.

Sing.	<i>I shall have been.</i>	Io sarò stato.	Plur.	<i>We shall have been.</i>	Noi saremo stati.
	<i>Thou shalt have been.</i>	Tu sarai stato.		<i>Ye shall have been.</i>	Voi sarete stati.
	<i>He shall have been.</i>	Egli sarà stato.		<i>They shall have been.</i>	Eglino saranno stati.

*POTENZIALE.**Preterito.*

Sing.	<i>I may, or can have been.</i>	Io posso essere stato.
	<i>Thou may'st, or canst have been.</i>	Tu puoi essere stato.
	<i>He may, or can have been.</i>	Egli può essere stato.
Plur.	<i>We may, or can have been.</i>	Noi possiamo essere stati.
	<i>Ye may, or can have been.</i>	Voi potete essere stati.
	<i>They may, or can have been.</i>	Eglino possono essere stati.

Can, in questo modo e tempo, non mi pare sia tanto frequentemente usato e nello scrivere e nel conversare quanto *may*.

I seguenti sono tempi indeterminati che talora pajono presenti, talora preteriti, e talora anche futuri.

Sing.	<i>I would be.</i> <i>Thou would'st be.</i> <i>He would be.</i>	Io vorrei essere o io sarei. Tu vorresti essere, o tu saresti. Egli vorrebbe essere, o egli sarebbe.
Plur.	<i>We would be.</i> <i>Ye would be.</i> <i>They would be.</i>	Noi vorremmo essere, o noi saremmo. Voi vorreste essere, o voi sareste. Eglino vorrebbero essere, o eglino sarebbero.
Sing.	<i>I could be.</i> <i>Thou could'st be.</i> <i>He could be.</i>	Io potrei essere. Tu potresti essere. Egli potrebbe essere.
Plur.	<i>We could be.</i> <i>Ye could be.</i> <i>They could be.</i>	Noi potremmo essere. Voi potreste essere. Eglino potrebbero essere.
Sing.	<i>I might be.</i> <i>Thou might'st be.</i> <i>He might be.</i>	Io potrei essere. Tu potresti essere. Egli potrebbe essere.
Plur.	<i>We might be.</i> <i>Ye might be.</i> <i>They might be.</i>	Noi potremmo essere. Voi potreste essere. Eglino potrebbero essere.
Sing.	<i>I should be.</i> <i>Thou should'st be.</i> <i>He should be.</i>	Io sarei, o io dovrei essere. Tu saresti, o tu dovresti essere. Egli sarebbe, o egli dovrebbe essere.
Plur.	<i>We should be.</i> <i>Ye should be.</i> <i>They should be.</i>	Noi saremmo, o noi dovremmo essere. Voi sareste, o voi dovrete essere. Eglino sarebbero, o eglino dovrebbero essere.

Preterito Composto.

Sing.	<i>I would have been.</i> <i>Thou would'st have been.</i> <i>He would have been.</i>	Io vorrei essere stato, o io sarei stato. Tu vorresti essere stato, o tu saresti stato. Egli vorrebbe essere stato, o egli sarebbe stato.
Plur.	<i>We would have been.</i> <i>Ye would have been.</i> <i>They would have been.</i>	Noi vorremmo essere stati, o noi saremmo stati. Voi vorreste essere stati, o voi sareste stati. Eglino vorrebbero essere stati, o eglino sarebbero stati.
Sing.	<i>I might have been.</i> <i>Thou might'st have been.</i> <i>He might have been.</i>	Io potrei essere stato. Tu potresti essere stato. Egli potrebbe essere stato.
Plur.	<i>We might have been.</i> <i>Ye might have been.</i> <i>They might have been.</i>	Noi potremmo essere stati. Voi potreste essere stati. Eglino potrebbero essere stati.
Sing.	<i>I could have been.</i> <i>Thou could'st have been.</i> <i>He could have been.</i>	Io poteva essere stato. Tu potevi essere stato. Egli poteva essere stato.
Plur.	<i>We could have been.</i> <i>Ye could have been.</i> <i>They could have been.</i>	Noi potevamo essere stati. Voi potevate essere stati. Eglino potevanc essere stati.

I due soprascritti verbi mi pare che, tanto nel discorso quanto in iscritto, sieno promiscuamente usati l' un per l' altro anche da' dotti Inglesi.

Sing.	<i>I should have been.</i> <i>Thou should'st have been.</i> <i>He should have been.</i>	Io avrei dovuto essere. Tu avresti dovuto essere. Egli avrebbe dovuto essere.
Plur.	<i>We should have been.</i> <i>Ye should have been.</i> <i>They should have been.</i>	Noi avremmo dovuto essere. Voi avreste dovuto essere. Eglino avrebbero dovuto essere.

INFINITO.

Presente.	<i>To be.</i>	Essere.
Preterito.	<i>To have been.</i>	Essere stato.
Participio presente.	<i>Being.</i>	Essendo.
Participio preterito.	<i>Having been.</i>	Essendo stato.

TO BE LOVED.

VERBO PASSIVO.

INDICATIVO.

I am loved, *io sono amato*, &c. I was loved, *io era amato*, o *io fui amato*, &c. I have been loved, *io sono stato amato*, &c.

CONGIUNTIVO.

If I be loved, *se io sono amato*, &c. If I were loved, *se io fossi amato*, o *se io era amato*. If I shall have been loved, *se io sarò stato amato*, &c.

POTENZIALE.

<i>I may, or I can be loved.</i>	Io posso essere amato, &c.
<i>I might, or I could be loved.</i>	Io potrei essere amato, &c.
<i>I should be loved.</i>	Io dovrei essere amato, &c.
<i>I might, or could have been loved.</i>	Io potrei essere stato amato, o io poteva essere stato amato, &c.
<i>I should have been loved.</i>	Io avrei dovuto essere amato, &c.

INFINITO.

Presente.	<i>To be loved.</i>	Essere amato.
Preterito.	<i>To have been loved.</i>	Essere stato amato.
Participio.	<i>Loved.</i>	Amato.

Una delle prime difficoltà, anzi la bella e prima in cui un Italiano, totalmente ignorante della lingua Inglese, incappa entrando in Inghilterra, è l' ordinario saluto interrogatorio di *how do ye do?* che italianamente diciamo *come state voi?* e che a tradurla letteralmente significherebbe *che fate voi?* Ed è molto di rado che uno trovi chi glielo spieghi chiaramente, cioè che gli dica come il primo *do* deriva dal verbo *to do*, che significa *fare*, e come il secondo *do* viene dal verbo stesso, quando è adoperato in modo ausiliario; del qual verbo *do*, ausiliaria-mente adoperato, noi Italiani non facciamo uso, e non possiamo quasimente aver idea se non impariamo l'Inglese. Questo verbo *to do*, o vuoi colla signifi-cazione di *fare*, o con la ausiliaria, che non serve ad altro che ad aggiungere energia, si conjuga così.

INDICATIVO.

Presente.

Sing.	<i>I do.</i>	Io faccio.	Plur.	<i>We do.</i>	Noi facciamo.
	<i>Thou doest.</i>	Tu fai.		<i>Ye do.</i>	Voi fate.
	<i>He does.</i>	Egli fa.		<i>They do.</i>	Eglino fanno.

Preterito.

Sing.	<i>I did.</i>	Io feci.	Plur.	<i>We did.</i>	Noi facemmo.
	<i>Thou didst.</i>	Tu facesti.		<i>Ye did.</i>	Voi faceste.
	<i>He did.</i>	Egli fece.		<i>They did.</i>	Eglino fecero.

Cotesto preterito è anche usato dagl' Inglese promiscuamente col preterito composto o perfetto.

Preterito Imperfetto.

Sing. <i>I had done.</i>	<i>Thou hadst done.</i>	<i>He had done.</i>	Io aveva fatto, o io avrei fatto.
Plur. <i>We had done.</i>	<i>Ye had done.</i>	<i>They had done.</i>	Tu avevi fatto, o tu avresti fatto.
			Egli aveva fatto, o egli avrebbe fatto.
			Noi avevamo fatto, o noi avremmo fatto.
			Voi avevate fatto, o voi avreste fatto.
			Eglino avevano fatto, o eglino avrebbero fatto.

Preterito Composto Perfetto.

Sing. <i>I have done.</i>	Io ho fatto.	Plur. <i>We have done.</i>	Noi abbiamo fatto.
<i>Thou hast done.</i>	Tu hai fatto.	<i>Ye have done.</i>	Voi avete fatto.
<i>He has done.</i>	Egli ha fatto.	<i>They have done.</i>	Eglino hanno fatto.

Futuro.

Sing. <i>I will do.</i>	Io farò.	Plur. <i>We will do.</i>	Noi faremo.
<i>Thou wilt do.</i>	Tu farai.	<i>Ye will do.</i>	Voi farete.
<i>He will do.</i>	Egli farà.	<i>They will do.</i>	Eglino faranno.

Altro *Futuro*, che indica sovente più risolutezza d' intenzione che non il *futuro* antecedente, come chi dicesse, *io farò senza dubbio*.

Sing. <i>I shall do.</i>	Io farò.	Plur. <i>We shall do.</i>	Noi faremo.
<i>Thou shalt do.</i>	Tu farai.	<i>Ye shall do.</i>	Voi farete.
<i>He shall do.</i>	Egli farà.	<i>They shall do.</i>	Eglino faranno.

IMPERATIVO.

Sing. <i>Do thou.</i>	Fa, o fa tu.	Plur. <i>Let us do.</i>	Facciamo, o facciamo noi.
<i>Let him do.</i>	Faccia, o faccia egli.	<i>Do ye.</i>	Fate, o fate voi.
		<i>Let them do.</i>	Facciano, o facciano eglino.

CONGIUNTIVO.

Sing. <i>I do.</i>	Io faccia.	Plur. <i>We do.</i>	Noi facciamo.
<i>Thou do.</i>	Tu faccia.	<i>Ye do.</i>	Voi facciate.
<i>He do.</i>	Egli faccia.	<i>They do.</i>	Eglino facciano.

Gli altri tempi di questo modo sono come quelli dell' *Indicativo*.

INFINITO.

Presente.	<i>To do.</i>	Fare.
Preterito.	<i>To have done.</i>	Aver fatto.
Participio presente.	<i>Doing.</i>	Facendo.
Participio preterito.	<i>Done.</i>	Fatto.

Do è qualche volta usato ausiliariamente, come *I do love*, *io amo*. *I did love*, *io amai*; ma quando questo si usa senza bisogno d' energia si fa anzi male che bene.

Do talora si usa per enfasi, e quando c' è bisogno d' energia, come in questo esempio tratto da Shakspeare :

*I do love thee, and when I love thee not
Chaos is come again.*

Do è sovente congiunto con particella negativa, come *I like her*, but *I do not love her*; *I wished him success*, but *did not help him*.

L' *imperativo* che proibisce, è di rado, e specialmente in prosa, rivolto alle seconde persone senza l' ausiliario *do*; come *stop him*, but *do not hurt him*; *praise beauty*, but *do not dote upon it*.

Di questo verbo si fa moltissimo uso nelle frasi interrogatorie, nelle quali si

congiunge con tutte e tre le persone tanto del singolare quanto del plurale, come, *DO I live? DOST thou strike me? DOES he complain? DO we go? DO they rebel? DIDST thou love her? DID she die? DO they come?* E così nelle interrogazioni negative, come, *DO NOT I grieve? DID NOT she die? DO NOT we act our part? DID NOT you read it in Tasso?*

Ne' tempi composti *do* non è usato interrogativamente.

Un altro modo hanno gl' Inglesi di conjugare *verbi neutri*, facendoli diventare *neutri passivi* variandoli coll' ajuto del verbo sostantivo *to be*, onde talora corrispondono quasi co' nostri *verbi reciprochi*, e *neutri passivi*; come, *I am risen, io mi sono levato*, che in Latino usando il *neutro passivo*, si direbbe semplicemente *surrexi*; *I was walked out, io me n' era uscito*, in Latino *exieram*.

In questa medesima maniera comunemente esprimono il tempo presente, come, *I am going, io me ne vado*, in Latino *eo*; *thou art grieving, tu sei dolente*, in Latino *doles*; *she is dying, ella sta morendo*, in Latino *illa moritur*; *the tempest is raging, la tempesta si è scatenata*, in Latino *furit procella*; *I am pursuing an enemy, sto perseguitando un nimico*, in Latino *hostem insequor*; e così in altri tempi, *I have been walking, sono stato a passeggiare*; *I had been walking, ero stato a passeggiare*; *I shall be walking, passerò*; *I will be walking, voglio passeggiare*.

E quì, giacchè questo *shall* e questo *will* mi sono tornati alle mani, conchiuderò le mie osservazioni sulle conjugazioni de' verbi Inglesi, con informare il mio studioso paesano, che il determinare la differenza che passa tra questi due segni del futuro, o tra *should* e *would*, e il fissare appuntino il loro proprio uso, è difficilissima, se non del tutto impossibil cosa. Io almeno, in otto anni di studio ostinatissimo di questa lingua, non ho mai potuto trovare una regola infallibile, e sì che l' ho cercata in tutte le grammatiche; e richiestala a quanti letterati mi sono venuti innanzi. In somma, questo è uno degl' intoppi che fanno frequentemente capitombolare i forestieri, che sono per la maggior parte tanto sconciati da questi *shall* e *will* e *should* e *would*, quanto gl' Inglesi lo sono co' nostri *aveva*, e *avrei* e *ebbi* e *ho avuto*, e con *era*, *fui*, e *sono stato*, da essi molto di rado adoperati bene, anche quando hanno studiata otto anni la nostra lingua e interrogati intorno il diritto uso di tali tempi tutti i nostri cruscanti. Il meglio dunque che un Italiano possa fare per errare il meno che sia possibile con que' benedetti segni, è leggere e rileggere i loro migliori scrittori, e formarsi l' orecchio buono; o per parlare meno da musico e più da filosofo, procurare di acquistare un sentimento interno che loro dica tosto quando debbono far uso di *will* e di *would*, e quando di *shall* e di *should*; e per ottenere questo fine, avvertano di non leggere troppi di que' tanti libri che gli scrittori Scozzesi tutto dì scarabocchiano e stampano, perchè degli Scozzesi appena ve n' ha uno in cento, con riverenza parlando, che sappia ben distinguere fra questi segni.

De' VERBI IRREGOLARI.

Quatunque le irregolarità de' verbi Inglesi non sieno che due, cioè nel tempo preterito e nel suo participio, pure bastano per imbrogliare moltissimo i forestieri, non essendo possibile por loro altro lume in mano per condurli in questa oscura via, che l' uso.

I preteriti regolari di *to love, to place, to fish, to wake, to smell*, e di moltissimi altri dovrebbero essere *loved, placed, fished, waked, smelled*; pure gl' Inglesi in poesia li fanno deviare un tantino dalla loro naturale regolarità, cangiandoli in *lov'd, plac'd, fish'd, wak'd, smell'd*, e in prosa per fretta di pronunzia trasformano i quattro ultimi in *plac't, fish't, wak't, smelt*.

To creep, to feel, to dwell, e altri sono nel preterito *crept, felt, dwelt*, e non mai *creeped, feeled, dwelled*.

To keep, to sleep, to weep, preterito *kept, slept, wept*.

To read al preterito fa *read* ; *to spread* fa *spread* ; *to shed* fa *shed* ; *to bid* fa *bid* ; *to hide* fa *hid* ; *to cast* fa *cast* ; *to smite* fa *smit* ; *to write* fa *writ* o *wrote* ; *to bite* fa *bit* ; *to meet* fa *met* ; *to shoot* fa *shot* ; *to lend*, *to send*, *to rend*, *to girt*, fanno *lent*, *sent*, *rent*, *girt*.

Altri preteriti si allontanano ancora di più dall' infinito che non fanno questi che pur ora ho scritti. *Won*, verbigrazia, è preterito di *to win*, *spun* di *to spin*, *begun* di *to begin*, *swam* di *to swim*, *struck* di *to strike*, *stuck* di *to stick*. *Sung*, *stung*, *flung*, *rung*, *wrung*, *swung*, *sprung*, sono participj di *to sing*, *to sting*, *to fling*, *to ring*, *to wring*, *to swing*, *to spring*. *Found*, *bound*, *ground*, *wound*, participj di *to find*, *to bind*, *to grind*, *to wind* ; *drunk*, *sunk*, *shrunk*, di *to drink*, *to sink*, *to shrink*. Che dirò tanti che hanno due preteriti tutt' e due irregolari, come *to run*, che (in vece di far *runned*) fa *run*, e poi anche *ran* ? *to begin* (in vece di *beginned*) fa *began*, e poi anche *begun* ? E *to spring* e *to drink*, che fanno *sprung* e *sprang*, e *drunk* e *drank* ? *to fight*, *to teach*, *to reach*, *to seek*, *to beseech*, *to catch*, *to buy*, *to bring*, *to think*, *to work*, fanno *fought*, *taught*, *raught*, *sought*, *besought*, *caught*, *bought*, *brought*, *thought*, *wrought* ? e, per accrescere perplessità, alcuni di questi stessi verbi vogliono oltre al preterito irregolare averne anche uno regolare, come *to teach*, che fa anche *taached* ; *to reach*, *reached* ; *to beseech*, *beseeched* ; *to catch*, *catched* ; *to work*, *worked*.

Molte delle nostre donne mi scambiarebbono per magno se io andassi dir loro che *to take*, *to shake*, *to forsake*, *to wake*, *to awake*, *to stand*, *to break*, *to bear*, *to shear*, fanno al preterito *took*, *forsook*, *woke*, *awoke*, *stood*, *broke*, *bore*, *shore*. Che *to swear*, e *to tear*, fanno *swore*, e *tore* ; che *to drive*, *to shine*, e *to thrive*, fanno *drove*, *shone*, *throve* ; che *to tread*, *to get*, *to beget*, *to forget*, fanno *trod*, *got*, *begot*, *forgot* ; che *to smite*, fa *smit*, e *smote* ; che *to give*, *to bid*, *to sit*, fanno *gave*, *bade*, *sate* ; che *to draw*, *to know*, *to grow*, *to throw*, *to blow*, *to crow* (come il gallo), fanno il preterito, *drew*, *knew*, *grew*, *threw*, *blew*, *crew* ; e che *to fly*, *to slay*, *to see*, *to lie*, fanno *flew*, *slew*, *saw*, *lay* ; e che da *to flee*, è fatto *fled* ; e da *to go* (senti questo !) si fa *went*.

Delle DERIVAZIONI.

Ho dovuto tanto allargarmi nelle conjugazioni specialmente, che mi conviene spacciare in poche parole, se si può, le derivazioni Inglesi.

Da' verbi *to love*, *to fight*, *to strike*, e dalla più parte de' verbi derivano molti agenti, come *lover*, *fighter*, *striker*, cioè *amatore*, *combattitore*, e *percuotitore*.

Da *to protect*, *to act*, e simili, derivano *protector*, *actor*, cioè *protettore*, *attore*.

Sostantivi, addiettivi, e talora altre parti del discorso, cangiansi in verbi ; come da *house* formasi *to house* ; da *brass* formasi *to braze* ; da *breath* formasi *to breathe* ; da *fish* formasi *to fish* ; da *oil* formasi *to oil* ; da *further* formasi *to further* ; da *forward* formasi *to forward*.

Da' sostantivi formansi addiettivi di abbondanza, aggiungendo loro una terminazione in *y*, come da *louse*, *lousy* ; da *wealth*, *wealthy* ; da *health*, *healthy* ; da *wood*, *woody* ; da *heart*, *hearty* ; da *hand*, *handy* ; da *water*, *watery*.

La terminazione *ful*, aggiunta a' sostantivi forma pure addiettivi d' abbondanza, come, *joy*, *joyful* ; *sorrow*, *sorrowful* ; *fruit*, *fruitful* ; *youth*, *youthful* ; *care*, *careful* ; *use*, *useful* ; *delight*, *delightful* ; *plenty*, *plentiful* ; *help*, *helpful*.

La terminazione *some* aggiunge anch' essa qualche pienezza agli addiettivi, sebbene non tanta quanta quella in *ful*, come *gamesome*, *irksome*, *burdensome*, *troublesome*, *lightsome*, *handsome*, *lonesome*, *delightsome*.

Al contrario la terminazione *less* aggiunta a' sostantivi, forma addiettivi significanti bisogno o mancanza di cosa, come *worthless*, *witless*, *heartless*, *houseless*, *joyless*, *careless*, *helpless*, *comfortless*, *sapless*, *hapless*.

Degli addiettivi terminati in *ous*, o in *able* non dirò nulla, perche somigliano

tanto a i nostri in *oso* e in *abile*, che non è difficile per noi il distinguerli subito ; e lo stesso dico di altri d' altre terminazioni nate dalle nostre, come *civil*, *genteel*, *elegant*, *improper*, *polite*, eccetera.

Così non farò neppur parola di molt' altre derivazioni che se non vennero in Inghilterra di Toscana, almeno vennero dal Lazio, perchè suppongo non affatto ignorante di belle lettere, e di Latino specialmente, chiunque leggerà questa mia grammatica.

Gl' Inglesi hanno alcuni addiettivi che terminano in *ish*, come *sweetish*, *greenish*, *whitish*, *thievish*, *coolish*, *childish*, *softish*. Questi si possono chiamare diminutivi.

Quegli addiettivi che terminano in *like*, significano somiglianza, come *giant-like*, *godlike*.

Da addiettivi concreti si formano sostantivi collo aggiunger loro *ness*, come *whiteness*, *greatness*, *skilfulness*, *hardness*.

Alcuni sostantivi formati da' addiettivi coll' aggiunta di *hood* o *head*, indicano carattere o qualità, come *manhood*, *widowhood*, *knighthood*, *priesthood*, *likelihood*, *falsehood*, *godhead*, *maidenhead*.

Que' sostantivi che terminano in *ship*, denotano officio, impiego, o condizione, come *kingship*, *wardship*, *guardianship*, *partnership*, *stewardship*, *lordship*.

Que' che terminano in *dom*, *rick*, e *wick*, denotano dominio, o almeno stato o condizione, come *kingdom*, *dukedom*, *earldom*, *princedom*, *popedom*, *christendom*, *wisdom*, *whoredom*, *bishoprick*, *bailiwick*.

Delle parole composte di due vocaboli, come *blue-eyed*, *hardheartedness*, *nimble-footed*, e simili, non dirò altro se non che chi saprà il significato d' essi separatamente troverà la loro significazione senza il mio ajuto.

DELLA SINTASSI.

La lingua Inglese ha così poca inflessione o così scarse varietà di terminazioni, che nè ricerca, nè ammette molte regole di costruzione.

Il verbo, come in altre lingue, s' accorda col nominativo in numero e in persona, come *thou fliest from good*, *he runs to death*.

Gl' Inglesi non fanno come noi, che, dato l' articolo a un nome, lo diamo eziandio a tutti gli altri della medesima clausula. Non diciamo verbigratzia *IL* marito, *LA* moglie, e *I* figli si rallegrarono molto. Ma gl' Inglesi dicono *THE husband*, *wife*, and *children*, *rejoiced much*.

Gli addiettivi sono sempre i medesimi, e non variano come i nostri. Noi diciamo verbigratzia *buono*, *buona*, *buoni*, e *buone*, secondo che il sostantivo è mascolino o femminino, singolare o plurale. Gl' Inglesi con un *good* escono d' intrigo in tutti i quattro casi.

Gl' Inglesi che si piccano d' eleganza, non danno mai a un sostantivo due o tre addiettivi per epiteti, come sovente facciamo noi, e in poesia specialmente. I loro poeti però talvolta peccano contro questa regola, e Milton più di tutti, perchè innamorato della poesia nostra, introdusse molti italianismi nel suo celebre poema, Questo bel principio d' un sonetto del Casa,

O sonno, o della queta, umida, ombrosa
Notte placido figlio,

farebbe trista figura in Inglese se fosse tradotto verbalmente, a cagione di que' tre addiettivi *queta*, *umida*, *ombrosa*, tanto sono le lingue differenti l' une dall' altre nella loro indole ; e a queste naturali differenze bisognerebbe che i critici badassero bene prima di biasimare le opere d' altre nazioni, e le poesie specialmente.

L' avverbio è per lo più collocato tra l' ausiliario e l' verbo, o tra l' pronome e il verbo quando l' idea non è determinata o assoluta, come, *they went down the hill*; *we have thus humbled their pride*; *she prettily said*; *ye are quickly to go*; *he quickly went*. Quando però l' idea non è sospesa o dubbiosa, ma assoluta o determinata, per lo più l' avverbio siegue il verbo; come, *I love her heartily*; *thou liest surely*; *we are tied fast*; *we have done well*; *we must go quickly*. Questa regola però è soggetta a molte eccezioni, e in poesia non ha quasi luogo.

Di due sostantivi il nome possessivo si fa genitivo, come, *his father's glory*, *the sun's heat*.

Verbi transitivi, come in Italiano, richieggono il caso obliquo; *he loves me*; *you fear him*.

Tutte le preposizioni, come in Italiano, vogliono un caso obliquo, come, *he gave this to me*; *he took this from me*; *he says this of me*; *he came with me*.

DELLA PROSODIA.

La prosodia comprende le regole del pronunziare e le leggi della versificazione.

Del pronunziare le regole sono tante e sì varie, che lo studio loro ingojerebbe più tempo che non l' imparare tutti i vocaboli della lingua: e siccome nel mio dizionario io mi sono preso gratis l' immenso incomodo di accentuare ogni parola suscettibile d' accento, cioè tutte le polisillabe; perciò mi risparmiarò qui una fatica che mi riuscirebbe troppo penosa e poco meno che inutile, perchè troppo piena di garbugli; e farò solamente alcune parole del Britannico modo di versificare.

Il verso principale degl' Inglesi è quello di dieci sillabe. Questo verso, per essere perfetto nella sua intrinseca armonia, deve avere cinque accenti, cioè un accento sopra ogni seconda sillaba. Quanti meno di tali accenti avrà, tanto più imperfetto sarà il verso; tuttavia il suo primo accento, cioè quello che cade sulla seconda sua sillaba, quasi non gli reca vantaggio alcuno; e allora solamente il verso zoppica e suona male, quando il quarto, il sesto o l' ottavo accento manca, vale a dire quando qualche accento in vece di cadere su una sillaba pari cade una cappa. Eccovi un saggio di buoni versi Inglesi tratto da una satira intitolata LONDRA del signor Samuello Johnson:

All that at home no more can beg or steal,
Or like a gibbet better than a wheel;
Hiss'd from the stage, or hooted from the court,
Their air, their dress, their politics import;
Obsequious, artful, voluble, and gay,
On Britain's fond credulity they prey.
No gainful trade their industry can 'scape,
They sing, they dance, clean shoes, or cure a clap;
All sciences a fasting Monsieur knows,
And bid him go to hell, to hell he goes.

Tanto in rima quanto fuor di rima, gl' Inglesi non si fanno scrupolo di finire i loro decasillabi con un vocabolo sdrucchiolo, cosa che pare un poco strana a un Italiano uso a considerare le due ultime sillabe d' un vocabolo sdrucchiolo come equivalenti a una sola sillabalunga. Nella sopradetta satira trovo questi due versi, il secondo de quali termina sdrucchiolamente:

Forgive my transports on a theme like this;
I cannot bear a French Metropolis,

E così termina pure il secondo de' due seguenti tratti dalla satira stessa:

Studious to please, and ready to submit,
The supple Gaul was born a parasite.

Il decasillabo Inglese non ammette accorciamento come l' endecasillabo nostro. Ammette però allungamento nello stile piacevole in rima ; e le composizioni degl' Inglesi in verso sciolto cioè le loro tragedie e commedie, sono piene di decasillabi allungati e divenuti endecasillabi, in virtù d' una sillaba aggiunta, che si potrebbe chiamare sillaba oziosa ; e Milton che trovò tal verso somigliantissimo nel suono ai nostri da lui molto coltivati, lo sparse a piena mano per entro il suo poema, forse con più suo biasimo che non con lode, perchè costì e' volle anzi abbandonarsi all' affetto suo per la lingua e poetici modi nostri, che strettamente badare al genio naturale della propria, la quale nello stile eroico è schifa oltremodo di abbellirsi con ornamenti stranieri. Pope nel suo celebrato poema del Ratto del Riccio, non ha che questa coppia d' endecasillabi.

The meeting points the sacred hair dissever
From the fair head, for ever and for ever.

Nicola Rowe dà cominciamento alla sua tragedia della *Bella Penitente* con sei versi tutti endecasillabi, come che il terzo si possa considerare come verso di dodici sillabè perchè termina con vocabolo sdrucchiolo, seguendo gl' Inglesi nel loro sciolto verseggiare il modo nostro di considerare al fin del verso due sillabe brevi come d' altrettanto valore che una lunga, quantunque nel rimare facciano da noi diversamente, come notai più sopra.

Let this auspicious day be ever sacred,
No mourning, no misfortunes happen on it ;
Let it be mark'd for triumphs and rejoicings ;
Let happy lovers ever make it holy,
Chuse it to bless their hopes and crown their wishes,
This happy day that gives me my Calista.

Questi endecasillabi hanno lo stesso suono che i nostri quando sono de' più perfetti ; bisogna però osservare che un delicato orecchio Italiano non soffrirebbe volentieri quel regolatissimo cadere d' ogni accento sur ogni seconda sillaba, di sei versi consecutivi, e un dilicato orecchio Inglese non potrebbe patire il contrario, ed hanno entrambi ragione, seguendo ciascuno la natura della sua favella.

Misto col decasillabo rimato gl' Inglesi usano un verso di dodici sillabe, da essi e da' Francesi chiamato *Alessandrino*. Di tal verso le più forti pause cadono sulla sesta e sulla duodecima sillaba ; e serve loro per lo più a introdurre un poco di varietà ne' loro poemi di stile eroico, e a chiudere strepitosamente un pensiero.

Waller was smooth, but Dryden taught to join
The varying verse, the full resounding line,
The long majestic march and energy divine.

Gli antichi poeti componevano de' pezzi interi di poesia in questa sorte di versi alessandrini, senza però badare a quell' alternamento di distici mascholini e femminini che i Francesi sempre adoperano nel loro verseggiare. Ecco un saggio di tali alessandrini Inglesi tratto dalle rime di Drayton, che fiorì nel tempo della Regina Elisabetta.

Of all the Cambrian shires their heads that bear so high,
And farth'st survey their soils with an ambitious eye,
Mervinia for her hills as for their matchless crowds,
The nearest that are said to kiss the wandering clouds,
Espial audience crave, offended with the throng,
That she of all the rest neglected was so long ;
Alledging for herself, when through the Saxon's pride,
The godlike race of Brute to Severn's setting side,

Were cruelly inforced her mountains did relieve,
 Those whom devouring war else every where did grieve,
 And when all Wales beside (by fortune or by might)
 Upon her ancient foe resigned her ancient right,
 A constant maiden still she only did remain,
 The last her genuine laws which stoutly did retain!
 And as each one is praised for her peculiar things,
 So only she is rich in mountains, meres, and springs,
 And holds herself as great in her superfluous waste,
 As others by their towns and fruitful tillage graced.

Un'altra misura di dodecasillabi molto presta e vivace usano gl' Inglesi per lo più in canzonette e in brevi componimenti d' allegrezza. Tal misura, quando è perfetta, ha gli accenti che cadono sur' ogni terza sillaba, come in questi due.

May I govern my passions with absolute sway,
 And grow wiser and better as life wears away.

Talora la prima sillaba di tal dodecasillabo manca senza ingiuria grande di tal verso, come

I think not of Iris, nor Iris of me.

Di presta e vivace misura sono pure certi versi di nove e di otto sillabe.

When terrible tempests assail us,
 And mountainous billows affright,
 No power nor wealth can avail us,
 But skilful industry steers right.

Questi sono d'otto sillabe, usati sovente in brevi poemi.

And may at last my weary age
 Find out the peaceful hermitage,
 The hairy gown, and mossy cell,
 Where I may sit, and nightly spell
 Of every star the sky does shew,
 And every herb that sips the dew.

Questi sono di otto accompagnati da altri di sei, usati in componimenti brevi e di molto piacevol suono.

When all shall praise, and every lay,
 Devote a wreath to thee,
 That day, for come it will, that day
 Shall I lament to see.

Questi sono di sette, e mi pajono avere una poca di pausa sulla prima sillaba, oltre alle due determinate sulla quinta e sulla settima.

Fairest piece of well form'd earth,
 Urge not thus your haughty birth.

Ogni secondo de' seguenti è di sei sillabe, e anche ogni primo si può considerare come di sei, non essendo allungato che da uno aggiungimento di una sillaba oziosa, che quì ha il medesimo effetto di quella additata quando si parlò del dodecasillabo fatto diventare endecasillabo.

'Twas when the seas were roaring,
With hollow blasts of wind,
A damsel lay deploring
All on a rock reclined.

I moderni Inglesi non usano troppo di far versi più corti di que' di sei sillabe, come troppo frivoli ed incapaci di molte bellezze poetiche; pure ecco un esempio di cinque sillabi:

In the days of old.
Stories plainly told
Lovers felt annoy.

E di tre sole:

Here we may
Think and pray
Before death
Stop our breath:
Other joys
Are but toys.

Chi si volesse diffondere ed essere minutissimo, potrebbe dire di alcuni altri metri, o usati da per se, o interpolati, adoperati dagl' Inglesi; e far parola d'un verso di quattordici sillabe scritto da un Chapman che tradusse Omero; e sciornare cento mila altre gentilezze di questa sorte; ma siccome io credo in ogni modo impossibile che un Italiano arrivi mai a tanta padronanza di tal lingua da poter in essa verseggiare a suo benplacito, porrò fine a questa prosodia, domandando anzi perdono al leggitore d' essermi esteso tanto in questa parte della grammatica Inglese, da cui non uno in mille de' miei paesani trarrà vantaggio.

THE ITALIAN AND ENGLISH DICTIONARY.

PART I.

CONTAINING

THE ITALIAN BEFORE THE ENGLISH.

A

A, the first letter of the Italian alphabet. The Tuscan sound is generally like **A** in English, when followed by two consonants in the same syllable, as in the words, *tall, wall, fall*. It is uttered with some vehemence when it stands as a sign to the dative case, and is followed by a consonant.

A is sometimes an article, which marks the dative case, either singular or plural, *ex. a me, to me, a voi, to you*.

A sometimes is a preposition, which signifies, *to, in, by, and, with, under, at*.—*Andàre a Parigi, to go to Paris*.—*Dimoràre a Londra, to live in London*.—*A forza di braccia, by strength of arms*.—*Due a due, two and two*.—*Nutrire a latte, to nourish with milk*.—*A mia signoria, under my command*.—*A ragione di sei per cento, at the rate of six per cent*.

A sometimes signifies, *why, towards, to, in the, on, upon, as, in, at, between*.—*A che piangi? why do you cry?*—*A tramontana, towards the north*.—*Dolente a morte, grieved to death*.—*Uno a uno, one after another*.—*A nome del Re, in the name of the King*.—*Andàre a cavàllo, to go on horseback*.—*A crédito, upon trust*.—*Ricèvere a grande onóre, to take it as a great honour*.—*V' aspetterò a casa, I shall stay for you at home*.—*Voi non fate differenza da me a lui, you make no difference between me and him*.

A with an apostrophe, is used instead of the article and preposition.

Vol. I.

A B B

tion preceding the relative case. — *Gittàre a' cani, to fling to the dogs*.—*Donàre a' pazzi, to give to fools*.

H.

H begins no radical word in Italian, therefore writers have thought fit to suppress it; but being joined with the letters C, G, and the vowels E, I, by putting the H between C or G, and the vowels E and I, it makes the same sound as when the said two consonants are joined with A O U, ex. Chino, Cheto, Gherone, Ghio; pronounce it thus; Kino, &c. We make use of it in the beginning of some words to suppress the equivocal signification, which the word might have if it was

written without H, *ex. Anno, a year, Hanno, they have, Ho, I have, Ha, he or she has.* It is used also in some words for aspiration, *ex. Deh, but it is never pronounced, having absolutely no sound in the Italian language.*

I.

I sounds always in Italian like I in the beginning of any English words that derive from the Latin, *ex. intelligibile, intelligible, ignominioso, ignominious.—I, instead of Io; I.—I venni, I came.*

I, an article of the nom. or acc. case of the plural number.—I libri, the books.
